Existing Clause	Amended Clause
7.1 (a) <i>The Exercise Price shall be Fair Market Value of Share or discount upto 10% or premium upto 10% to Fair Market Value of Share decided by Nomination and Remuneration Committee from time to time as on date of Grant of Options.</i>	7.1 (a) <i>The Exercise Price shall be the Market Price or maximum discount upto 40% (Forty percentage) to the Market Price or premium upto 10% (Ten percentage) to the Market Price, at the sole discretion of the Nomination and Remuneration Committee as on date of Grant of Options.</i>

“**RESOLVED FURTHER THAT** the amendment to the ESOS 2017 is not prejudicial to the interests of the option grantees.”

“**RESOLVED FURTHER THAT** the Board of Directors of the Company (hereinafter referred to as the “Board” which term shall be deemed to include any Committee, including the Nomination and Remuneration Committee, which the Board has constituted or re-constituted from time to time, to exercise its powers including powers conferred by this Resolution and under the Regulations 5 of the SEBI SBEB Regulations), be and is hereby authorized to do all such acts, deeds, matters and things and sign deeds, documents, letters and such other papers as may be necessary, as it may in its absolute discretion deem fit or necessary or desirable for such purpose including giving effect to the proposed amendments in the ESOS 2017, settle all questions, difficulties or doubts that may arise in relation to the amendment, implementation and formulation of the ESOS 2017 to the end and intent that the members shall be deemed to have given their approval thereto expressly by the authority of this Resolution.”

ITEM NO. 10: Alteration in the Articles of Association by substituting the Article 111 of Articles of Association

To consider and, if thought fit, to pass with or without modification, the following resolution as a **Special Resolution**:

“**RESOLVED THAT** pursuant to provisions of section 14 and other applicable provisions, if any, of the Companies Act, 2013 and Rules made thereunder including any statutory modification(s) or re-enactment(s) thereof for the time being in force and such other approvals, permissions and sanctions from the appropriate authority, if any, the consent of the members of the Company be and is hereby accorded to alter the Articles of Association of the company by substituting the existing Article 111, so as to enable the company to implement any instruction from a Member(s) of the Company to waive/forgo his/their right to receive the dividend (interim or final) for any financial year henceforth, on a year to year basis.

Existing Article 111	Revised Article 111
The waiver in whole or in part of any dividend on any share by any document (whether or not under seal) shall be effective only if such document is signed by the member (or the person entitled to the share in consequence of the death or bankruptcy of the holder) and delivered to the Company and if or to the extent that the same is accepted as such or acted upon by the Board.	(1) Notwithstanding anything contained in these Articles of the Company, but subject to the provisions of the Act and all other applicable rules of the statutory authorities, it shall be open for the Members of the Company who hold the equity shares in the Company to waive/forgo his/their right to receive the dividend (interim or final) by him/them for any financial year which may be declared or recommended respectively by the Board of Directors of the Company. The waiver/forgoing by the Members, his/their right to receive the dividend (interim or final)

	<p>by him/them under this Article shall be irrevocable immediately after the record date/book closure date fixed for determining the names of Members entitled for dividend. The Company shall not be entitled to declare or pay and shall not declare or pay dividend on equity shares to such Members who have waived/forgone his/their right to receive the dividend (interim or final) by him/them under this Article.</p> <p>(2) The waiver in whole or in part of any dividend on any share by any document (whether or not under seal) shall be effective only if such document is signed by the member (or the person entitled to the share in consequence of the death or bankruptcy of the holder) and delivered to the Company and if or to the extent that the same is accepted as such or acted upon by the Company.</p>
--	---

“**RESOLVED FURTHER THAT** the amended Articles of Association of the Company, containing the aforesaid alteration, be and is hereby approved.”

“**RESOLVED FURTHER THAT** Board of Directors of the Company be and is hereby authorized to take all the requisite, incidental, consequential steps to implement the above resolution and to perform all such acts, deeds, matters and things as it may, in its absolute discretion, deem necessary, any question, query, or doubt that may arise in this regard, and to execute/publish all such notices, deeds, agreements, papers and writings as may be necessary and required for giving effect to this resolution.”

NOTES:

1. In view of the continuing Covid-19 pandemic, the Ministry of Corporate Affairs (“MCA”) has vide its circular dated April 8, 2020 read with circulars dated April 13, 2020, May 5, 2020, and January 13, 2021 (collectively referred to as “MCA Circulars”) permitted the holding of the Annual General Meeting (“AGM” or “Meeting”) through VC / OAVM, without the physical presence of the Members at a common venue. In compliance with the provisions of the Companies Act, 2013 (“Act”), SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 (“Listing Regulations”) and MCA Circulars, the AGM of the Company is being held through VC / OAVM. The facility of VC or OAVM and also casting votes by a member using remote e-voting as well as venue voting system on the date of the AGM will be provided by Central Depository Services (India) Limited (CDSL). The framework prescribed by MCA in said circulars would be available to the members for effective participation in following manner:
 - a. Company is convening 58th Annual General Meeting (AGM) through VC / OAVM and no physical presence of members, directors, auditors and other eligible persons shall be required for this annual general meeting.
 - b. VC / OAVM facility provided by the Company, is having a capacity to allow at least 1000 members to participate the meeting on a first-come-first-served basis. However, the large shareholders (i.e. shareholders holding 2% or more shareholding), promoters, institutional investors, directors,

KMPs, the Chairperson of the Audit Committee, Nomination and Remuneration Committee and Stakeholders Relationship Committee, auditors etc. may be allowed to attend the meeting without restriction on account of first-come-first-served principle.

- c. Considering the on-going pandemic situation and in compliance with the MCA Circulars and SEBI Circular dated 12th May, 2020, read with SEBI circular dated 15th January, 2021, Notice of the AGM along with the Annual Report is being sent only through electronic mode to those Members whose email addresses are registered with the Company / Depository Participants. Members may note that the Notice of 58th AGM and the Annual Report of the Company for the year ended 31st March, 2021 is uploaded on the Company's website www.borosilrenewables.com and may be accessed by the members and will also be available on the website of the Stock Exchanges i.e. BSE Limited and National Stock Exchange of India Limited at www.bseindia.com and www.nseindia.com respectively and on the website of CDSL at www.evotingindia.com
- d. Company is providing two way teleconferencing facility or webex for the ease of participation of the members. Link for joining the meeting will be provided separately.
- e. The registered office of the company shall be deemed to be the place of meeting for the purpose of recording of the minutes of the proceedings of this AGM.
- f. Pursuant to the Circular No. 14/2020 dated April 08, 2020, issued by the Ministry of Corporate Affairs, the facility to appoint proxy to attend and cast vote for the members is not available for this AGM. However, the Body Corporates are entitled to appoint authorised representatives to attend the AGM through VC/OAVM and participate thereat and cast their votes through e-voting.

Corporate Members intending to attend the Meeting through their authorised representatives are requested to send a Certified True Copy of the Board Resolution and Power of Attorney, (PDF/ JPG Format) if any, authorizing its representative to attend and vote on their behalf at the Meeting. The said Resolution/Authorisation shall be sent to the email id of Scrutinizer (bhattvirendra1945@yahoo.co.in), RTA (ravi@unisec.in) and Company investor.relations@borosilrenewables.com with a copy marked to helpdesk.evoting@cdslindia.com.

- g. Members, directors, auditors and other eligible persons to whom this notice is being circulated can attend this annual general meeting through video conferencing at least 15 minutes before the scheduled time and shall be closed after expiry of 15 minutes from the scheduled time.
 - h. The attendance of the Members attending the AGM through VC/OAVM will be counted for the purpose of reckoning the quorum under Section 103 of the Companies Act, 2013
 - i. Since the AGM will be held through VC / OAVM in accordance with the MCA Circulars, the route map, proxy form and attendance slip are not attached to the Notice.
 - j. The CDSL helpline number regarding any query / assistance for participation in the AGM through VC/OAVM are 022-23058738 or 022-23058543 or 022-23058542.
2. The register of members and share transfer books of the Company shall remain closed from Friday, September 24, 2021 to Thursday, September 30, 2021 (both days inclusive) for the purpose of Annual General Meeting.

3. During the year under review, the Company has transferred Rs.10,32,284/- being the unpaid and unclaimed dividend amount pertaining to the Dividend for the Financial Year 2012-2013 and 24,510 equity shares in case of unclaimed dividend for the year 2012-13 of the Company to the demat account of IEPF Authority, by following the prescribed procedure. The Company has also transferred sale proceeds of Rs.1,226/- to IEPF, arising due to sale of fractional shares, pursuant to Composite Scheme of Amalgamation and Arrangement.

Members, who have not yet encashed their dividend pertaining to the Final Dividend for financial year 2013-14 are advised to write to the Company immediately for claiming dividends declared by the Company. The Final Dividend for the financial year 2013-2014 is due to be transferred to the IEPF Fund immediately after September 17, 2021. In case valid claim is not received by that date, the Company will also proceed to transfer the respective shares to the Demat Account of the IEPF Authority ('IEPF Account') in terms of the IEPF Rules by following the prescribed procedure.

The information with respect to voting process and other instructions regarding e-voting are detailed in Note no. 15.

12. Members seeking any information or clarification on the accounts or any other matter to be placed at AGM are requested to send written queries to the Company on investor.relations@borosilrenewables.com, at least 10 days before the date of the meeting to enable the management to respond appropriately.
13. Pursuant to Section 72 of the Companies Act, 2013, members holding shares in physical form may file nomination in the prescribed Form SH-13 and for cancellation / variation in nomination in the prescribed Form SH-14 with the Company’s RTA. In respect of shares held in demat form, the nomination form may be filed with the respective Depository Participant.

14. SEBI has mandated the submission of Permanent Account Number (PAN) by every participant in securities market. Members holding shares in electronic form are, therefore, requested to submit the PAN to their Depository Participant with whom they are maintaining their demat accounts and members holding shares in physical form to the Company / RTA.

15. Voting process and instructions regarding remote e-voting:

Section A: Voting Process:

Members should follow the following steps to cast their votes electronically:

Login method for e-voting and joining virtual meeting for individual members holding shares in demat form:

- i) Pursuant to SEBI Circular No. SEBI/HO/CFD/CMD/CIR/P/2020/242 dated 9th December, 2020, under Regulation 44 of the Listing Regulations, Listed companies are required to provide remote e-voting facility to its members, in respect of all members' resolutions.

Currently, there are multiple e-voting service providers (ESPs) providing e-voting facility to listed companies in India. This necessitates registration on various ESPs and maintenance of multiple user IDs and passwords by the members.

In order to increase the efficiency of the voting process, all the demat account holders have been enabled for e-voting by way of a single login credential, through their demat accounts / websites of Depositories / Depository Participants. Demat account holders would be able to cast their vote without having to register again with the ESPs.

III. Other terms and conditions:

This appointment may be terminated by either party by giving three months' notice in writing.

Variation in terms of remuneration for the financial year 2020-21:

Members of the Company at its meeting held on September 28, 2020 had appointed Mr. Ashok Jain (DIN: 00025125) as Whole Time Director (WTD) of the Company with effect from February 12, 2020 to July 31, 2021 on terms & conditions including remuneration as stated in the explanatory statement (item no.10) of the 57th Annual General Meeting Notice.

In case of adequate profit during the financial year 2020-21, the Company can pay managerial remuneration upto 5 % of the net profit of the Company to a single managerial person.

In case of inadequate profit, such managerial remuneration shall not exceed Rs. 120 lakhs plus 0.01% of effective capital in excess of Rs.250 crores based on Company's effective capital, which is more than Rs.250 crores.

However, in both the above cases, the remuneration in excess of said limits may be paid if the resolution passed by the Shareholders is a Special resolution.

Further, the shareholders of the Company in its meeting held on September 28, 2020 had approved increase in overall limit of managerial remuneration payable by the Company in respect of any financial year, from 11% of Net Profit to such amount, both in respect of Executive and Non-executive Director as the Board may deem fit, subject to compliance of conditions of Schedule V of the Companies Act, 2013.

Based on recommendation of the Nomination & Remuneration Committee of the Company, the Board of Directors of the Company has:

- i) approved payment of a special bonus upto Rs.55 lakhs to Mr Ashok Jain as stimulus for successfully guiding the company through very trying times during the heart of the Covid crisis; and
- ii) approved granting of stock options under 'Borosil Employee Stock Option Scheme 2017', as decided by the Nomination & Remuneration Committee of the Board of Directors of the Company.

Accordingly, Mr.Ashok Jain was granted 87,500 stock options under the aforesaid Scheme.

The above variations in terms of his remuneration for the financial year 2020-21 are required to be approved by the shareholders by way of a Special Resolution in terms of various provisions of the Companies Act, 2013, Schedule V and rules made thereunder.

The Board of Directors and Nomination and Remuneration Committee in its meeting held on February 12, 2021, while considering remuneration of Mr. Ashok Jain have considered parameters in terms of Rule 6 of Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014.

Although, his remuneration may exceed the limits stated in Section II of Part II of Schedule V of the Companies Act, 2013, in terms of Ministry of Corporate Affairs Notification dated September 12, 2018, the remuneration in excess of limits laid down in Section II of Part II of Schedule V to the Companies Act, 2013 may be paid by passing a Special Resolution. As such Special Resolution is proposed for payment of remuneration to him. The Board recommends the Resolutions of this Notice for approval of the Members.

Except, Mr. Ashok Jain and his relatives, none of the other Directors, Key Managerial Personnel of the Company and their relatives are, in any way concerned or interested, financially or otherwise, in the resolutions set out at item no. 5 and 6 of the Notice.

2013 may be paid by passing a Special Resolution. As such Special Resolution is proposed for payment of remuneration to him.

The Board recommends the Resolutions at item no.7 and 8 of this Notice for approval of the Members.

Except, Mr. Ramaswami V. Pillai and his relatives, none of the other Directors, Key Managerial Personnel of the Company and their relatives are, in any way concerned or interested, financially or otherwise, in the resolutions set out at item no.7 and 8 of the Notice.

ITEM NO. 9

Borosil Renewables Limited (erstwhile known as Borosil Glass Works Limited) (“BRL” or “Company”) had introduced and implemented the ‘**Borosil Employee Stock Option Scheme 2017**’ (“ESOS 2017” or “Scheme”). The ESOS 2017 as originally envisaged has come into force on August 10, 2017 on which the members of the Company have approved the ESOS 2017 by way of a special resolution. The objective of the ESOS 2017 was to facilitate employee participation in the ownership of the Company by offering equity shares (“Shares”) of the Company to eligible employees of the Company or its subsidiaries or holding company (Collectively referred to as “Companies”). The Company had granted several employee stock options (“Options”) from time to time to employees of the Companies.

In the meantime, the market price of the shares has become quite volatile. In addition, the Company is also contemplating the business expansion plan. Due to these reasons, the Company intends to keep certain degree of flexibility in the exercise price at the time of grant of Options. Hence, it is thought expedient to amend the ESOS 2017 in terms of revising the existing provision of exercise price under the ESOS 2017 by seeking to increase the discount portion subject to the maximum discount of 40% (Forty percentage) at the time of grant of Options at the discretion of the Nomination and Remuneration Committee (“Committee”).

It was noted that the proposed revision/ amendment in the ESOS 2017 is not detrimental to the interests of the employees and that the beneficiaries of the proposed revision/ amendment shall be such eligible employees of the Companies to whom fresh grant will be made.

Provisions of Regulation 7 of the Securities and Exchange Board of India (Share Based Employee Benefits) Regulations, 2014 (“SEBI SBEB Regulations”) read with Section 62(1)(b) and all other applicable provisions, if any, of the Companies Act, 2013 provides that the Company may vary the terms of the Options granted not yet exercised by the employees by way of the members’ approval through special resolution, provided that such variation is not prejudicial to the interests of the existing option grantees.

Subject to your approval, the Nomination and Remuneration Committee (“Committee”) and the Board of Directors of the Company have approved the amended ESOS 2017 vide their respective resolutions dated May 12, 2021 respectively.

Features of the ESOS 2017 shall remain same as originally approved except as stated above.

Given the details of variation/ amendment, rationale thereof and beneficiaries of such variation, as per SEBI SBEB Regulations, your approval is sought for the variation/ /amendment to the ESOS 2017 in the lines stated above. A copy of the revised ESOS 2017, is available on the website of the Company, for the perusal and consideration of the Members.

Also, a copy of the existing ESOS 2017, would be available for inspection, by the Members without any fee, at the Registered Office of the Company during normal business hours on any working day (except Saturday and Sunday).

The Directors recommend the Resolution at Item No. 9 of the accompanying Notice, for the approval of the Members of the Company.

None of the Directors or Key Managerial Persons of the Company including their relatives are interested or concerned in this resolution, except to the extent they may be lawfully granted Options under the ESOS 2017.

In light of above, you are requested to accord your approval to the Special Resolution as set out at agenda item no.9 of the accompanying notice.

ITEM NO. 10:

After introduction of the Finance Bill, 2020, the Shareholders are liable to pay Tax on Dividend declared by the Company as per the slab rates of Income Tax applicable to them with effect from FY 2021-22, which was earlier used to be paid by the Companies in form of Dividend Distribution Tax.

The Board of Directors of the Company is of view that, due to change in the aforesaid tax structure, some shareholders, particularly the large shareholders may be willing to waive/ forgo their dividend entitlement for the ultimate benefit of the other Shareholders and the Company as a whole.

Considering the aforesaid scenario, it is necessary to alter the Articles of Association of the Company by substituting the Article 111: **Waiver of Dividend**, of Articles of Association, to enable the company to implement any instruction from a Member(s) of the Company to waive/forgo his/their right to receive the dividend (interim or final) for any financial year henceforth, on a year to year basis.

Hence, the Board of Directors at its meeting held on May 12, 2021, has approved the said alteration and recommended the Members of the Company for their approval.

A soft copy of the amended Articles of Association will be available for electronic inspection by the Members on the date of AGM. Members seeking for such inspection can send an email to investor.relations@borosilrenewables.com

None of the Directors, Key Managerial Personnel of the Company and their relatives are, in any way, concerned or interested financially or otherwise in this resolution set out at Item no. 10 of the Notice.

ITEM NO. 11:

The Company is planning to further expand its solar glass business by adding manufacturing capacities. Such capacity expansion is proposed due to increasing demand for Company's products and growth potential in the near future in the domestic as well as export markets.

The Board of Directors of the Company in its meeting held on August 25, 2021 approved raising of capital by the Company through further public offer, rights issue, American Depository Receipts / Global Depository Receipts / Foreign Currency Convertible Bonds, qualified institutions placement, preferential issue or any

BOROSIL RENEWABLES LIMITED

other method or through a combination thereof, as may be considered appropriate, subject to shareholders approval and government/regulatory/statutory approvals, and requirements as applicable.

In order to augment additional capital requirements of the Company for its growth and expansion over the next few years, it is necessary for the Company to have funds as and when the window of opportunity arises. The Company, therefore, proposes to raise further capital from the domestic and international markets in one or more tranches from time to time. The Board shall utilize the proceeds to exploit the opportunities in existing businesses and/or explore the scope of any new business opportunities including business acquisitions, capital expenditures, financing new business initiatives, meeting additional working capital requirements arising out of growth in operations, investment in/ loans/ advances to subsidiaries/ joint ventures/ associates and for other general corporate purposes.

The resolution in accompanying Notice proposes to create, issue, offer and allot equity shares, Fully / Partly / Optionally Convertible Debentures/Preference shares and/or securities linked to equity shares and/or convertible securities including but not limited to Global Depository Receipts (GDRs) and/or American Depository Receipts (ADRs), Foreign Currency Convertible Bonds (FCCBs), partly or fully paid-up equity/debt instruments as allowed under SEBI (ICDR) Regulations, (hereinafter referred to as "Securities") for an aggregate amount not exceeding Rs. 500 Crore (Rupees Five Hundred Crore Only) or equivalent thereof, inclusive of premium, in the course of domestic/ international offerings. Such securities are proposed to be issued to eligible person including but not limited to resident investors and foreign investors (whether individuals, mutual funds, incorporated bodies, institutions or otherwise), Foreign Financial Institutions and other Qualified Institutional Buyers etc.

The proposed Special Resolution seeks the enabling authorization of the Members to the Board of Directors without the need of any further approval from the Members to undertake to issue securities in accordance with the provisions of the Securities and Exchange Board of India (Issue of Capital and Disclosures Requirements), Regulation, 2018, as amended from time to time (the "SEBI Regulations"). Pursuant to the above, the Board may, in one or more tranches, issue and allot Equity Shares in the form of Follow-On Public Offer (FPO), Global Depository Receipts (GDRs), and/or American Depository Receipts (ADRs), and/ or External Commercial Borrowings (ECBs) with rights of conversion into shares, and/ or Foreign Currency Convertible Bonds (FCCBs) and/or Optionally or Compulsorily Convertible Redeemable Preference Shares (OCPS/CCPS) convertible into Equity Shares of the Company with voting rights or with differential rights as to voting, dividend or otherwise. The said allotment by the Board of Directors ('Board') shall be subject to the provisions of the SEBI Regulations (as amended from time to time) including the pricing, which shall be calculated in accordance with the provisions of the SEBI Regulations in consultation with the Merchant Banker.

The relevant date for the determination of applicable price for the issue of the Securities shall be as per the SEBI Regulation which in case of allotment of equity shares will be the date of the meeting in which the board of directors or the committee of directors decides to open the proposed issue and in case of securities which are convertible into or exchangeable with equity shares at a later date will be either the date of the meeting in which the board of directors or the committee of directors decides to open the proposed issue of convertible securities or date on which the holder of such securities becomes entitled to apply for the said equity shares as the case may be.

For reasons aforesaid, an enabling resolution is therefore proposed to be passed to give adequate flexibility and discretion to the Board to finalize the terms of the issue. The securities issued pursuant to the offering would be listed on the Stock Exchanges on which the Company is listed. The offerings of the Securities

may require appointment of Merchant Bankers, Underwriters, Legal Advisors and Experts or such other Authority or Authorities to advise the Company especially in relation to the pricing of the Securities.

The detailed terms and conditions of the Issue as and when made will be determined in consultation with the Merchant Bankers, Lead Managers, Advisors, Underwriters and other Experts in accordance with the terms of approval of the Government of India, Reserve Bank of India, SEBI and such other authorities as may be required.

Section 42 and 62(1)(c) of the Companies Act, 2013, provide, inter alia, that where it is proposed to increase the Subscribed Share Capital of the Company by allotment of further shares, such further shares shall be offered to the persons who at the date of the offer are holders of the Equity Shares of the Company, in proportion to the capital paid up on those shares as of that date unless the shareholders decide otherwise by way of a Special Resolution.

The proposed Special Resolution gives (a) adequate flexibility and discretion to the Board to finalise the terms of the issue, in consultation with the Lead Managers, Underwriters, Legal Advisors and Experts or such other authority or authorities as required to be consulted including in relation to the pricing of the issue in accordance with the normal practice and (b) powers to issue and market any securities issued including the power to issue such Securities in such tranche or tranches.

Accordingly, the consent of the Members is being sought, pursuant to the provisions of Section 62(1)(c) and other applicable provisions of the Companies Act, 2013, and SEBI Regulations, and in terms of the provisions of the Listing Regulations, as amended from time to time, to issue and allot securities as stated in the Special Resolution.

The Board of Directors of the Company believes that the proposed issue is in the interest of the Company and hence, recommends the resolution for the approval of the Shareholders by way of Special Resolution.

None of the Directors, Key Managerial Personnel and their relatives, other than to the extent of their shareholding in the Company, are concerned / interested, financially or otherwise, in the above resolution.

BOROSIL RENEWABLES LIMITED

III OTHER INFORMATION		
1.	Reasons for inadequate profits	During the preceding financial year i.e. 2020-21, the Company had adequate profits to pay managerial remuneration within the limits prescribed under the Companies Act, 2013. As the things stand now, only in the unlikely event of major disruption in production or marketing, there may be inadequate profit in future years.
2.	Steps taken or proposed to be taken for Improvement	Steps taken/to be taken: a. Anti-dumping duty on imports from China has been imposed in 2017 for 5 years. b. Anti-dumping duty on imports from Malaysia has been imposed recently. c. Further enhancing production capacity to achieve economies of scale and raise turnover and profits. d. Enhancing sale of Value added products in order to earn better margins. e. Constant effort to increase productivity /efficiencies and reduce costs.
3.	Expected increase in productivity and profits in measurable terms.	The long term story of the Company as regard productivity and profits looked to be promising, barring unforeseen circumstances. This trend is likely to continue even next year as the Company is in the middle of an ambitious expansion plan. However, at present it is difficult to precisely indicate these in measureable terms. In order to continue with the current uptick trend and to pursue further ambitious growth plans, the services of all managerial personnel of the company is critical and hence they need to be rewarded appropriately.

DIRECTORS' REPORT

To
The Members of
BOROSIL RENEWABLES LIMITED

Your Directors have pleasure in presenting the Fifty-Eighth Annual Report and the Audited Financial Statement for the financial year ended March 31, 2021.

FINANCIAL RESULTS

The Company's financial performance (Standalone) for the financial year ended March 31, 2021 along-with that of the previous financial year ended March 31, 2020 are summarized below:

(Rs. in Lakhs)

Particulars	Standalone	
	Year ended 31.03.2021	Year ended 31.03.2020
Revenue from Operations	50,227.23	27,115.59
Other Income	536.33	360.50
Profit for the year before Finance Cost, Depreciation and Exceptional Items	20,272.77	4,004.16
Less: Finance Cost	796.29	666.57
Less: Depreciation and Amortization Expenses	4,208.29	3,210.05
Profit before Exceptional Items	15,268.19	127.54
Add: Exceptional Item	-	-
Profit Before Tax	15,268.19	127.54
Less: Tax expenses*	6,303.74	82.26
Profit for the year	8,964.45	45.28
Other Comprehensive Income	(62.11)	(26.19)
Profit After Tax including Other Comprehensive Income	8,902.34	19.09

* Including the one time charge of Rs. 1860.03 Lakhs for the year as the Company decided to avail the benefits of the "The Direct Tax Vivad Se Vishwas Scheme, 2020" in respect of disputed income tax matters of the earlier years, which were mainly related to compulsory acquisition of Company's Land (in the financial year 2016-17) by the Municipal Corporation of Greater Mumbai and same were disclosed as contingent liability in the financial statements for the year ended 31st March, 2020.

The above figures are extracted from the Standalone Financial Statements prepared in accordance with accounting principles generally accepted in India as specified under Sections 129 and 133 of the Companies Act, 2013 ("the Act") read with the Companies (Accounts) Rules, 2014, as amended and other relevant provisions of the Act and guidelines issued by the Securities and Exchange Board of India.

BOROSIL RENEWABLES LIMITED

DIVIDEND

Your Directors do not recommend any dividend for the financial year in order to conserve resources to fund growth. The Board of Directors of the Company has approved the Dividend Distribution Policy in line with Regulation 43A of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015. This has been uploaded on the Company's website at <http://borosilrenewables.com/Investor.html?q=Policies>

RESERVES

During the year under review, no amount was transferred to any Reserve.

SHARE CAPITAL

The Company's paid-up Equity Share Capital as on March 31, 2021 was Rs. 13,00,49,299/- as compared to Rs. 11,40,59,537/- as on March 31, 2020. The Company's Authorised Capital as on March 31, 2021 was Rs.183,90,00,000/-comprising of 91,65,00,000 equity shares of Re. 1/- each and 9,22,50,000 preference shares of Rs.10/- each. During the year under review, the Company has neither issued shares with differential voting rights nor sweat equity.

During the financial year under review, the Company had issued and allotted 1,85,732 equity shares of Re.1/- each of the Company to its eligible employees / ex-employees on exercise of options granted under the Borosil Employee Stock Option Scheme 2017 as amended.

Pursuant to the approval of the members at the Annual General Meeting of the Company held on September 28, 2020, the Company, under Qualified Institutional Placement mechanism, issued and allotted 1,58,04,030 equity shares of face value Re. 1/- each on December 17, 2020 to eligible Qualified Institutional Buyers at the issue price of Rs. 126.55, aggregating to Rs 200 crores (approx).

During the year under review, the paid-up equity share capital of the Company has undergone change as follows:

Particulars	Amount in (Rs.)
Paid up Equity share capital as on March 31, 2020	11,40,59,537
Add: Further issue and allotment under Qualified Institutional Placement	1,58,04,030
Add: Further issue and allotment pursuant to exercise of options as per Company's ESOP scheme.	1,85,732
Total Paid up Equity share capital as on March 31, 2021	13,00,49,299

UTILISATION OF FUNDS RAISED THROUGH QUALIFIED INSTITUTIONAL PLACEMENT (QIP)

The details of utilization of funds raised through Qualified Institutions Placement are mentioned below.

Deployment of Equity Issue Proceeds	Amount in (Rs.)
Amount received in Escrow Account	199,99,99,996.50
Issue related Expenses	3,90,42,730
Total Utilisation	3,90,42,730
Investments in Mutual Funds*	196,09,57,266.50
Total	199,99,99,996.50

* The funds raised by QIP have been invested into Mutual Funds considering the requirement of liquidity as per the expected progress of the project and the same will be made available for deployment for the expansion project (installation of 3rd Furnace (SG-3) production line) in due course over the current financial year.

SUBSIDIARIES AND ASSOCIATES

As on March 31, 2021, the Company did not have any Subsidiary Company. However, the Company already had a Policy on material subsidiaries of the Company. The said policy is available on the website of the Company at <http://borosilrenewables.com/Investor.html?q=Policies>

COVID-19 PANDEMIC

The outbreak of Coronavirus (COVID-19) has impacted businesses globally. The Company had to shut down its hot end production lines/ furnaces from 23rd March, 2020 and put them on soak till 23rd April, 2020. Thereafter, the Company started partial operations towards end of April and later on full production from 17th June, 2020. This affected production/ sales and impacted financial results for the quarter ended 30th June, 2020.

The Registered Office in Mumbai had to remain shut from the last week of March, 2020 to July, 2020 before becoming partially operational.

The Company has not suffered any losses in respect of recovery of Trade receivables and Inventories as it achieved normal level of business operations from July 2020, inspite of all coronavirus induced challenges.

STATE OF AFFAIRS / PERFORMANCE

The year 2020-21 saw a major transition in the company with improved operational performance as a result of achieving a higher scale after the capacity expansion implemented in 2019-20.

The Company had in 2019-20 added a second furnace with a capacity of 240 MT/day, which was commissioned in August 2019 and also rebuilt the first furnace with an enhanced capacity to 210 MT/day, which resumed operations in December 2019.

The operational performance started to see full impact of this from December 2019 and the company could register revenue of Rs 94.3 crores and EBITDA of Rs 21.2 crores during January to March 2020. This could have been higher but for the nationwide lock-down and restrictions imposed from 23rd March 2020 due to which significant sales could not be effected.

During the year under review, the performance in the first quarter remained severely impaired due to the impact of Covid-19 with shut downs/partial operations in the entire country as also in rest of the world. The situation started to improve towards the end of June 2020. However, due to a panic situation and fall in demand the selling prices of finished goods had to be dropped by us significantly due to dumping from China/Malaysia at prices much lower than the level prevailing during January/March 2020. The recovery in prices started towards the end of September 2020 and the import prices continuously kept increasing until January 2021 before a sharp correction from end of March 2021. The price rise was as a result of a demand supply mismatch due to higher installations in China and a steady shift towards the use of glass-

BOROSIL RENEWABLES LIMITED

glass modules in which two glasses are used as against one in a conventional module. 95% of the global production of solar glass is controlled by Chinese Companies, who determine international pricing. The company's large customers follow the price trend of imported glass, and are not willing to pay a higher price for the Company's product. With global prices prevailing higher during the later part of the year, the company was able to realize higher selling prices from its domestic as well as export markets.

The Company registered a significant jump in its revenue to Rs 50,227 Lakhs from Rs. 27,116 Lakhs achieved in the previous year, a growth of 85.2%, led by higher volumes and better selling prices.

Out of the above, exports (including to its customers in SEZ) during the year under review were Rs.11048 lakhs as compared to Rs. 6271 lakhs during the previous year. Exports comprised 22% to the Company's revenues during FY21.

Profit before finance cost, depreciation, exceptional items and tax during the year grew by over five times from Rs 4004 Lakhs in FY20 to Rs. 20273 Lakhs in FY21 led by higher selling prices and operational performance.

The Company has historically faced pressure on its selling prices due to continued cheap and dumped imports from China and Malaysia. The imposition in August 2017 of anti-dumping duties on imports from China provided some relief, its impact was only marginal due to a shift of the major supply point to Malaysia, which offers subsidies to its companies which are not available to us. Large volumes of imports continued to flow unhindered from Malaysia acquiring a significantly large market share by dumping at low prices without being subject to anti-dumping/countervailing duty.

Finally, on 12th March 2021 the Government has levied a countervailing duty on imports of solar tempered glass originating from Malaysia. The Anti-dumping duty against imports from China is valid till August 2022. The company has filed an application with the concerned authority to extend the duty for another 5 years considering a strong likelihood of continued dumping in view of large production capacities being added by Chinese companies, which are likely to cause a surplus and heighten the dumping. This has already started to happen after levy of CVD against Malaysia as imports from China are seen to have started to rise from April 2021.

There is a major shift towards use of a thinner glass globally as lower weight enables the assembly of glass-glass modules. Such modules enhance productivity and cost effectiveness of the module as compared to conventional 3.2mm glass used with a back sheet. Glass to glass modules using bifacial cells can enhance power generation by as much as 10-15%. The demand for 2.1mm from the Photovoltaic solar market is growing in the export markets. Similarly, the use of solar glass in 2.5mm thickness, which allows manufacturers to make completely new, lighter and more efficient conventional as well as glass-glass Photovoltaic modules is gaining traction. The Company expects to further enhance the sale of thinner glass lower than 3.2mm thickness. As per projections by ITRPV bifacial modules will grow to become 60% of global solar glass demand by year 2025. We expect this trend to play out in India in coming years. The Company is also increasing its sale of solar glass with Anti-soiling coating. It has successfully developed an Anti-glare glass, certified for use in solar modules installed in the vicinity of airports.

The Company has commissioned a study with the help of National Center for Photovoltaic Research and Education, IIT-B to evaluate various technologies and solar glass in particular to further optimize the product offering. It is also working on an Indo-Italian Government project on a comparative study of on-field

performance of Antimony-free solar glass vis-a-vis other solar glass. The company has recently obtained a patent for Antimony-free glass.

Your Company continues to leverage its engineering and development capability, to innovate on new products and processes and continues its focus on cost optimization and increasing productivity to stay competitive against cheap dumped imports from Malaysia and China.

In the current financial year 2021-22, the performance is likely to be once again impacted in the near term by the second wave of Covid-19 pandemic which has forced many countries to impose lockdowns/restrictions. This may have some short-term impact on demand and prices, which have moderated substantially in April 2021. Demand over a medium to long term is expected to be very high as the Governments in various countries including India continue to lay increased emphasis on renewable energy. .

EXPANSION PLAN AND RAISING OF FUNDS

In December 2020, the Company made a Qualified Institution Placement Issue at an issue price of Rs. 126.55 and garnered Rs. 200 Crore (Approx.) for part financing of project SG3 (3rd furnace of the Company). The Company has also tied up Term Loans of Rs 200 crore with commercial banks for the said project. The balance will be funded from internal accruals. During the year under review, the Company started work on installing this 3rd furnace (SG-3) with an installed capacity of up to 500 MT and the work on the Project is progressing as per schedule. The said project is likely to be commissioned by July 2022.

The company has been keeping a constant watch on developments taking place in the sector. Many such developments aim at boosting domestic manufacturing and supply chain within the country to make it "Aatmanirbhar Bharat".

Manufacturing of solar modules has been growing over the years though this constitutes almost 50-60% of the installations at present. In order to promote domestic manufacturing of modules, the Government has taken a series of measures in the last 2~3 years:

1. Solar power generating installations set up under programs such as the CPSU scheme, Kusum Scheme (solar water pumps for agriculture sector) and subsidy on residential rooftops are required to use modules made in India using domestically manufactured solar cells.
2. Levied a safeguard duty on imports of cells and modules in July 2018, which shall continue till July 2021.
3. Manufacturing linked tender for 6 GW under which integrated manufacturing capacities are required to be set up.
4. Announced that a basic customs duty of 40% on import of modules and 25% on import of solar cells will be effective from 1st April, 2022.
5. Announced a PLI (Performance Linked Incentives) scheme under which additional production of High-efficiency solar modules, cells and further backward integration will be incentivized. The scheme promotes use of domestically produced components as the incentives are designed to be at a higher rate in case of use of domestic components. This incentivizes solar module manufacturers to source solar glass and other components from domestic producers.

BOROSIL RENEWABLES LIMITED

The total annual manufacturing capacity of solar modules in India currently stands at about 11 GW. Significantly large capacity additions have been announced by various existing and new players. It is expected that 13 GW additional capacities will come up in next 1-2 years. The module manufacturers are also looking at supply chain of the key components from domestic sources including solar glass.

The Government is attracting investment into production of Poly-silicon ingots and wafers so that there is assured supply for this strategically important sector. Coal India has announced plans to set up such facility for 10 GW. Capacity additions in cell manufacturing give rise to expectations for the capacity to ramp up to about 15 GW. The rise in the installed capacity of solar module/cell manufacturing will lead to a rise in the production of solar modules which in turn will lead to a higher demand for solar glass.

An important amendment to the laws governing levy of duties on clearances from SEZ into DTA has plugged a loophole which allowed dutiable imported components to escape levy of duty when assembled into a finished product cleared from SEZ into DTA. This will negate the preference given by the module manufacturers in SEZ to using imported solar glass hitherto and we expect demand to divert to domestic sources of supply.

Considering the above market situation, the glass demand going forward indicates room for further expansion.

In addition to its presence in the domestic market, the Company has a meaningful presence in export markets. While the Company's exports are mainly to European nations, its customers are spread across other countries including Turkey, Russia, Middle East, Africa, North and South America. The EU has recently launched a "solar accelerator program" envisaging the setting up of almost 8-10 GW of module manufacturing capacity within the next 3-4 years, to augment its present manufacturing capacity, which is insufficient. The European Union has recently extended by five years the levy of Anti-dumping duty on solar glass coming from China. These developments will allow the Company to increase exports and gain market share.

All the aforesaid factors indicate a promising demand scenario for solar glass. To meet this growing demand, the company has decided to go for a further expansion of manufacturing capacity by 1000 TPD. This will be realized by setting up two more furnaces (viz. 4th and 5th furnace) each with a capacity of 500 TPD in two phases. Phase-1 is expected to be taken up in the second half of the current financial year and phase-2 will be taken up immediately after commissioning of the current expansion (SG-3) on hand in 2022-23. The proposed capacity expansion plan under phase-1 envisages setting up a new furnace with all downstream activities like grinding, coating, drilling, back printing and tempering facilities at the same factory location in a new building.

Phase-1 will entail capex of INR 500 crores (Excluding margin money for increased working capital and GST). It is expected that phase-1 will be commissioned by April 2023.

The Company has decided to finance the same by using a mix of debt, equity and internal accruals. The Company is planning to raise Rs 100 crore by way of a rights issue of shares in due course.

MANAGEMENT DISCUSSION & ANALYSIS REPORT

Some statements in this discussion pertaining to projections, estimates, exceptions or outlook may be forward looking. Actual results may however differ materially from those stated on account of various

factors such as changes in government regulations, tax regimes, public health, economic developments, currency exchange rates and interest rate movements, impact of competing products and their pricing, product demand and supply constraints within India and other countries where the Company conducts business. Estimates made with regard to market size of various segments and their respective rates of growth are internal estimates made by the management.

A. INDUSTRY STRUCTURE AND DEVELOPMENTS

The Company is engaged in production of low iron textured solar glass used in the manufacture of photovoltaic modules within the solar power sector. China has dominated the Solar power manufacturing sector globally during the last few years, and now is also the largest investor in solar power generating installations. Chinese manufacturers have increasingly started to use Malaysia and Vietnam as their new manufacturing hubs for solar glass. These subsidiaries engage in large scale related party transactions with their parents, which provide interest-free capital, fixed assets, and raw materials at related party prices. This opens the window for costs which are not at arms' length, thereby circumventing international trade remedy measures by showing a cost of manufacture with no relation to prevailing international prices of inputs and services. They also access several significant fiscal and other incentives in the host countries.

Solar power has emerged as a major growth area in the country and worldwide in the last 6-7 years, led by a greatly enhanced thrust from the Central Government after 2014. The Government has set ambitious targets of achieving solar power installations of 100 GW by 2022, and 300 GW by 2030, a figure widely expected to be surpassed. The total installations as on March 31, 2021 stood at 40 GW with a demand pipeline for another 22 GW in various stages of development and 33 GW more in the bidding stage. These activities will gather momentum and accelerate at a faster pace from the current financial year to 2023-24 with this pipeline showing demand visibility. Besides various schemes generating demand, the Government is also pressing players to meet their various renewable power obligations (RPOs). Electrical vehicles are going to be another major area for demand growth in near future. All these factors will ensure continuous demand visibility and high growth in this industry. A significant portion of new power installations is by way of renewable energy and the share of solar power in the renewable as well as overall energy basket is rising rapidly.

In 2020 the annual global solar PV installations were 110 GW despite severe disruption due to the pandemic, which raged throughout the entire world during the year. Installation records were set by China, which accounted for about 48 GW, EU accounting for (18.7 GW) and USA accounting for (19.2 GW). In India the solar installations were 5.5 GW in new large-scale grid and rooftop solar in FY21, bringing the country's total installed solar capacity to 40 GW as of March 2021.

The lower prices of dumped solar modules ensure that a significant portion of on-grid solar installations still use imported modules. We do see a gradual shift in preference to the use of locally produced modules. Even for the modules made in India, there is very heavy dependence on imported components including cells and solar glass. The domestic manufacturing sector has now received a significant boost on account of the announcement of BCD and PLI. These measures are expected to boost domestic manufacturing of all components including solar glass.

B. OPPORTUNITIES & THREATS

OPPORTUNITIES

The Company remains the only producer of solar glass in the country so far and its product enjoys widespread acceptance. An early mover in the field, it has invested in a long and painful learning curve and come a long way. In this journey the company has amassed distinct advantages in its understanding of operating techniques and with recent expansions it has started to accrue benefits of scale of operations. It has sufficient land and infrastructure to take up further brownfield expansions. Having met the stringent quality requirements and needs for testing as a component as well as at PV module level, it certainly has an edge over any new entrants. It constantly evaluates avenues for growth in this sector in both domestic and export markets. In the domestic market, its natural advantage of offering a shorter lead-time to module manufacturers and assured supplies work favorably in helping it to secure business. A significant portion of the expansion in module capacity is being done by its existing customers, which will make it relatively easier for the company to sell additional volumes.

Power demand has once again started to grow and the solar power outlook in India remains very strong. Solar installations account for a major portion of all new power capacity added in India. This robust installation activity also made solar the single largest source of new power capacity additions consecutively in the last 4 years.

The various policy initiatives taken by the government as mentioned hereinabove more particularly the ones directed towards promoting domestic manufacturing are expected to generate a long-term sustainable demand for components, which will enable the creation of a robust value chain in the near future. Initiatives like “Atmanirbhar Bharat” are also changing sentiments to give preference to local supplies. The Geo-political situation with China has already become a key decision point for the drive to reduce dependence on imports by various stakeholders in the value chain, and this sentiment is not just in India but also internationally, where there is a concerted effort to diversify their sources of solar glass.

It is expected that the global installations will be significantly higher in the current and the following years as all the major economies are placed an increased focus on renewables. This will drive up the demand for all components including solar glass.

Module manufacturing capacity is set to rise to 24 GW in the next 2 years which will lead to higher requirement of solar glass. The output from the two existing furnaces as well as the planned new furnace of your Company will fall short and leaves significant room for further capacity additions considering the expansion in demand. This demand will only rise with the gradual shift towards bifacial /glass-glass modules.

THREATS

- Government policies to provide solar power at the cheapest price and the methods like reverse bidding for power projects and capping of tariffs has led to possibilities of compromise on quality and long-term aspects of power generation. The lower prices and insufficient margins have so far been keeping the manufacturers of components away from taking up expansion plans. It will be interesting to see how the proposed levy of Basic Customs Duty and the PLI scheme gets rolled out and changes this situation.

- The current safeguard duty on Imported solar cells & modules will expire on 30th July 2021. In case the same is not extended till at least March 2022 i.e. the time when BCD becomes effective, it could lead to widespread import of modules, which can cause serious disturbances in solar module manufacturing and a consequent fall in demand for components including solar glass during this period.
- India continues to meet a significant portion of its demand for solar cells and modules for the utility scale sector through imports, which come largely from China, Taiwan, Malaysia etc. Unless the country establishes the entire value chain by backward integration into Polysilicon, ingots and wafer manufacturing, the entire program is vulnerable to disruptions in supply chain.
- Currently the solar manufacturing facilities in China are in excess of the demand from their domestic program thereby making them dependent on exports. Chinese manufacturers are further raising their capacities looking at future demand. Solar glass production is a continuous process industry. China as the World's largest PV glass producer accounts for over 95% of the total solar glass capacity. Large capacity additions have been initiated in 2020 by Chinese manufacturers which are going to spill over into 2021 and 2022. Any drastic change in policy or a supply/demand mismatch can result in surplus capacity for modules/glass, which could enhance dumping at heavily discounted prices. This can put severe pressure on the selling prices of glass and adversely affect the profitability.
- The Chinese producers have set up manufacturing plants in Malaysia and Vietnam mainly to cater to their export markets including India. A significant portion of solar glass imports into the country today are happening from Malaysia. A solar glass plant has now come into production in Vietnam. There is no duty against imports from Vietnam and unless suitable immediate duty measures are put in place, there may be dumping leading to price disturbances.
- Anti-dumping duty against import of solar glass from China is valid till August 2022. In case the same are not extended, it can lead to renewed dumping, looking particularly at large capacity additions in solar glass production taking place in China.

C. SEGMENTWISE OR PRODUCTWISE PERFORMANCE

The Company's business activity falls within a single primary business segment viz. Manufacture of Flat glass. As such, there are no separate reportable segments as per Indian Accounting Standard 108.

The Segment Revenue in the Geographical Segment considered for disclosure are as follows:

- i) Revenue within India includes sales to customers located within India excluding SEZ and EOU.
- ii) Revenue outside India includes sales to customers located outside India and including to SEZ/ EOU

Sales:	2020-21 (Rs. In Lakhs)	2019-20 (Rs. In Lakhs)
Within India	39,179	20,845
Outside India	11,048	6,271
TOTAL	50,227	27,116

D. OUTLOOK

The growth of solar energy in the Country has gained momentum in the last 5 years. The Government has plans to set up 100 GW of solar power installations by 2022 and a new target of 300 GW by 2030 has been set. To achieve this, we need corresponding quantity of solar modules, which could either be imported or made domestically. Domestic manufacturing of solar modules requires supply of solar glass. The actions on the ground in all the sectors i.e. Grid power, Rooftop and Solar water pumps are showing good growth. Electrical vehicles could be another big area for growth of solar power. The agencies like Solar Energy Corporation of India Limited (SECI) are creating enough demand visibility and auctions are being held much in advance. We expect a significant growth in solar module manufacturing in the country on the back of a series of measures taken by the Government. Thus, demand for solar glass is expected to rise exponentially over next 3-5 years.

The solar energy produced will reduce pressure on natural resources besides being non-polluting and environment friendly and will lead to saving in the Oil import bill with very little recurring cost. It is expected that a very significant portion of new power installations will continue to come from renewables led by solar. Significant amount of work is going on providing economic and efficient storage, which will make solar installations along-with storage a competitive and desirable source of power. As the prime domestic manufacturer of solar glass, your Company expects to participate in and benefit from the extremely strong growth potential for the solar power sector.

E. RISK AND CONCERNS

The Company is exposed to normal industry risk factors of competition, economic cycle and uncertainties in the international and domestic markets.

In India there is a complete exemption from import duty on solar glass whereas it is subject to levy of high rate of import duties in major producing countries i.e. China/Malaysia. Glass imports from China and Malaysia have taken huge market share in view of such free imports, which are happening at highly subsidized prices. This has not allowed domestic industry to realize its full potential and serve the growing demand. It is essential that India impose an appropriate basic import duty on all imports of solar glass. Government should also support by way of inclusion as a product eligible for incentive under PLI scheme, and DCR. Such measures are essential to provide a level playing field to domestic industry and attract investment.

On the front of Solar installations, the Government approvals for land and readiness of power distribution companies to evacuate power needs to be focused in order to realise ambitious growth plans to produce solar energy. Non signing of PPAs by respective off-takers in many of the SECI tendered projects estimated currently at 13-14 GW is a setback and brings in doubts over these projects and the order pipeline. The DISCOMS have to be discouraged from their moves to cancel PPAs already executed and go for renegotiating exiting contracts, to instill confidence in the investors. The continued pressure to quote lower prices for electricity in the biddings to get Government allocations is leading to lower prices for input/component manufacturers thereby making them vulnerable to the temptation of using substandard components, which could affect the health of the manufacturing Industry. On the other hand, it leaves very little incentive for investors/developers to commit resources.

This is a strategically important industry for India and we have to see how the industry shapes up in the near term buoyed by measures taken by the government to boost manufacturing in the entire

value chain and become self-reliant. Development of the entire eco-system is the only way to pave the way for robust growth, ensure supply chain and achievement of ambitious plans.

F. INTERNAL FINANCIAL CONTROL SYSTEMS AND THEIR ADEQUACY

The Company has adequate Internal Control Systems commensurate with its size and nature of business. All transactions are properly authorized, recorded and reported to the management. The internal control systems are designed to ensure that the financial statements are prepared based on reliable information. Internal Audits are continuously conducted by an in-house Internal Audit department of the Company and Internal Audit Reports are reviewed by the Audit Committee of the Board periodically.

G. DISCUSSION ON FINANCIAL PERFORMANCE WITH RESPECT TO OPERATIONAL PERFORMANCE

The operational performance during the year improved significantly as the Company achieved record production at full capacity and sales of the entire production. The EBIDTA margins improved considerably and have registered an all-time high due to better operational performance, economies of scale, controls over cost of inputs and better than average selling prices.

H. MATERIAL DEVELOPMENT IN HUMAN RESOURCES, INDUSTRIAL RELATION FRONT, INCLUDING NUMBER OF PEOPLE EMPLOYED

Number of people employed as on 31st March, 2021 were as under:

Staff : 346
 Workers : 140 (Excluding contract labour)

The Company has effective HR systems to make the performance appraisals and working more transparent. Greater operational and financial details are shared with the management cadre with a view to having their deeper involvement and for development of human resources. The Company has a Code of Business Ethics for its employees.

BOROSIL RENEWABLES LIMITED

BOROSIL EMPLOYEE STOCK OPTION SCHEME 2017

The Shareholders vide special resolution passed on August 10, 2017 have authorized the Nomination and Remuneration Committee to grant Employee Stock Options not exceeding 11,55,000 in number to the Employees under the Borosil Employee Stock Option Scheme 2017. Out of the aforesaid total options, 1,10,847 options were granted to certain employees of the Company and its then subsidiary companies. The shareholders passed resolution on July 24, 2018 for bonus issue of equity shares in ratio of 3:1 and on August 06, 2018 the Bonus Shares Issue Committee allotted such bonus shares.

As per the provisions of the Borosil Employee Stock Option Scheme 2017 a fair adjustment in number of options and to the exercise price was required to be made in case of corporate actions such as right issue, bonus issues etc. On making adjustment for bonus issue the revised total number of options stood at 46,20,000 whereas options granted stood at 4,43,388 options. The Company made fair adjustment in the number of options and to the exercise price in view of Bonus issue.

Pursuant to sanction of Composite Scheme of Amalgamation and Arrangement by NCLT, Mumbai on January 15, 2020, the Board of Directors of the Company in its meeting held on February 03, 2020, approved modification/amendment of the existing "Borosil Employee Stock Option Scheme 2017" with a view to restore the value of the employee stock options ("Options") pre and post arrangement by providing fair and reasonable adjustment and sought to provide revised quantum of Options with the revised exercise price to the old Option-holders, to whom old employee stock options had been granted under the ESOS 2017. All other terms and conditions of ESOS 2017 to the extent required under the Scheme of Arrangement read with provisions of the Applicable Law have been kept similar.

As per clause 30.4 of the Composite Scheme of Amalgamation and Arrangement, the exercise price of stock option of our Company was required to be suitably adjusted in an appropriate manner, as determined by the NRC Committee of our Company and the balance of the exercise price has become the exercise price of the stock option issued by the Resulting Company (Borosil Limited). As per market price of share of our Company and fair market value of Resulting Company based on valuation report, the ratio of fair market value of our Company and Borosil Limited, Resulting Company is 49.85: 88.15. Based on this ratio, the exercise prices work out as follows:

Date of Grant	Exercise price (post bonus)	Adjusted exercise price for Borosil Renewables Limited's Shares	Exercise price for Borosil Limited's shares
02.11.2017	200	72.25	127.75
24.07.2018	254	91.75	162.25

The said option holders under the scheme have received equal number of options of Resulting Company (Borosil Limited) at the exercise price mentioned above.

During the year 2020-21, there has been exercise of 1,85,732 stock options. The Company has granted 87,500 options to Mr. Ramaswami V Pillai, Whole Time Director and 87,500 options to Mr. Ashok Jain, Whole Time Director under the Borosil Employee Stock Option scheme, 2017 at exercise price of Rs.274 in financial year 2020-21.

A certificate is being obtained from M/s. Pathak H. D. & Associates LLP, Chartered Accountant that Employee Stock Option Scheme 2017 has been implemented in accordance with SEBI regulations and

the resolution passed by members in their general meeting. The certificate will be placed at the ensuing Annual General Meeting for inspection by members.

Directors will be entitled for actual entertainment and travelling expenses incurred for business purposes.

The above payments shall be subject to such approvals as may be necessary under the Companies Act, 2013 and the Listing Agreement.

Remuneration of Non- Executive Directors:

Fees:

Shall be entitled to payment of fees for attending each Board and Committee Meetings as may be decided by the Executive Directors (members) of the Board, within the limit prescribed under the Rules made under the Companies Act, 2013. The fees may be on uniform basis, as the committee views that all directors affectively contribute to the benefit/growth of the Company.

Separate fees may be decided in respect of Board Meetings and Committee Meetings.

Variable Components:

Commission:

Subject to the approval of the shareholders and within the overall limit of 1% as prescribed by the Companies Act, 2013, the Non-Executive Directors may be paid commission on a pro rata basis.

Reimbursement of Expenses:

For Non-Executive Directors actual expenses in connection with Board and Committee Meetings are to be reimbursed. In addition, if a Non-Executive Director is travelling on Company's business, as permitted by the Board, he/she shall be entitled for his/her travelling and lodging expenses on actual basis.

Key Managerial Personnel:

Key Managerial Personnel shall be paid salary and perquisites, like other employees of the Company based on their qualification, job experience, as may be applicable and as may be applicable to the grade, to which they belong.

Other Employees:

The Company has a performance management system in place in form of software that is known as 'Formula HR', for assessing the performance and competence in order to fix the remuneration and determination of increments of the employees.

The Company has various grades starting from Officers Level to Senior Vice President. There are different departments like Production, Marketing, Finance, HR & Administration, Legal, Secretarial and IT, with departmental heads of each departments of the level of Vice President / General Manager with their respective teams/subordinates of different grades.

Initial remunerations are decided based on an employee's qualification, past experience, suitability for the job and the level for which the position is intended.

At the start of every financial year, organizational strategy is converted into department goals which further get converted as individual KRAs & Competencies. At the end of every financial year, individual performance is measured against these set KRAs & Competencies. The increments then are decided on the basis of 4 parameters, viz.

- 1) Individual Performance
- 2) Organizational Performance
- 3) New year's budgeted Organizational Performance
- 4) Industry benchmark

The Promotions are decided broadly on the basis of three parameters viz. availability of promotable position, consistent performance, potential of the incumbent to grow to the next level.

Loans / advances to employees:

The Company has policy for granting loan/advances to its employees containing such terms & conditions including regarding interest, as it may deem fit. The Company may in special cases grant loan/advances beyond the limit prescribed in the said policy. The Company may vary said policy from time to time.

ANNEXURE D

Form No.: MR-3
SECRETARIAL AUDIT REPORT
FOR THE FINANCIAL YEAR ENDED 31ST MARCH, 2021
*[Pursuant to Section 204(1) of the Companies Act, 2013 and Rule No.: 9 of the
Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014]*

To,
The Members,
Borosil Renewables Limited
(Formerly known as Borosil Glass Works Limited)

I have conducted the secretarial audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by the **Borosil Renewables Limited** *(formerly known as the Borosil Glass Works Limited)* (hereinafter called "the Company"). Secretarial Audit was conducted in a manner that provides me a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing my opinion thereon.

Based on my verification of the Company's statutory registers, papers, minute books, forms and returns filed with the Registrar of Companies ('the ROC'), soft copy of the various records sent over mail as provided by the Company and other relevant records maintained by the Company and also the information provided by the Company, its Officers and authorized representatives during the conduct of secretarial audit, I hereby report that in my opinion, the Company has, during the audit period covering the financial year ended on 31st March, 2021 ("audit period"), prima facie complied with the statutory provisions listed hereunder and also that the Company has proper Board-processes and compliance-mechanism in place to the extent, in the manner and subject to the reporting made hereinafter:

I have examined the statutory registers, papers, minute books, forms and returns filed with the ROC and other relevant records maintained by the Company for the financial year ended on 31st March, 2021 according to the provisions of:

- (i) The Companies Act, 2013 ("the Act") and the rules made there under;
- (ii) The Securities Contracts (Regulation) Act, 1956 ("SCRA") and the rules made there under;
- (iii) The Depositories Act, 1996 and the Regulations and Bye-laws framed there under;
- (iv) Foreign Exchange Management Act, 1999 and the rules and regulations made there under to the extent of Foreign Direct Investment, Overseas Direct Investment and External Commercial Borrowings-applicable only to the extent of Foreign Direct Investments and Overseas Direct Investment;
- (v) The following Regulations and Guidelines prescribed under Securities and Exchange Board of India Act, 1992 ("SEBI Act"):-
 - (a) The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018;
 - (b) The Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011;

- (c) The Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 2015;
- (d) The Securities and Exchange Board of India (Share Based Employee Benefits) Regulations, 2014;

Though the following laws are prescribed in the format of Secretarial Audit Report by the Government, the same were not applicable to the Company for the financial year ended 31st March, 2021:-

- (a) The Securities and Exchange Board of India (Issue and listing of Debt securities) Regulations, 2008;
 - (b) The Securities and Exchange Board of India (Registrars to an Issue and Share Transfer Agents) Regulations, 1993 regarding the Companies Act and dealing with client;
 - (c) The Securities and Exchange Board of India (Delisting of Equity Shares) Regulations, 2009;
 - (d) The Securities and Exchange Board of India (Buyback of Securities) Regulations, 2018;
- (vi) I further report that, based on the Compliance Report of various Laws submitted by Department Heads of the Company, the Company has prima facie proper system to comply with the applicable laws.
- (vii) I have also examined compliance with the applicable clauses of the following and I am of the opinion that the Company has prima facie complied with the applicable provisions:-
- (a) Secretarial Standards 1 and 2 issued by the Institute of Company Secretaries of India;
 - (b) The Listing agreements entered into by the Company with Stock Exchanges read with the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015.

During the period under review, I am of the opinion that the Company has prima facie complied with the provisions of the Act, Rules, Regulations, Guidelines, Standards, etc. as mentioned above.

I further report that:

1. I have not examined the Financial Statement, financial Books & related financial Act like Income Tax, Sales Tax, Value Added Tax, Goods and Service Tax Act, ESIC, Provident Fund & Professional Tax, Related Party Transactions etc. For these matters, I rely on the report of statutory auditor's and their observations and notes on accounts in Financial Statement for the year ended 31st March, 2021.
2. The Board of Directors of the Company is duly constituted with proper balance of the Executive Directors, Non-Executive Directors and Independent Directors. The changes in the composition of the Board of Directors that took place during audit period were carried out in compliance with the provisions of the Act.
3. As per the information provided, prima facie adequate notice is given to all directors to schedule the Board Meetings, agendas and detailed notes on agendas were sent at least seven days in advance,

and a system exists for seeking and obtaining further information and clarifications on agenda items before the Meeting and for meaningful participation at the Meeting.

4. I was informed and I observed from the minutes of the Board and Committee Meetings that all the decisions at the Meetings were prima facie carried out unanimously.
5. There are prima facie adequate systems and processes in the Company commensurate with the size and operations of the Company to monitor and ensure compliance with applicable laws, rules, regulations and guidelines.
6. The management is responsible for compliances of all business laws. This responsibility includes maintenance of statutory registers/files required by the concerned authorities and internal control of the concerned department.
7. During the audit period, the Company has issued and allotted 1,58,04,030 Equity Shares to the eligible Qualified Institutional Buyers on 17th December, 2020.
8. During the audit period, the Company had filed Forms required to be filed within prescribed time and some with additional fees.
9. During the audit period, as per the information provided by the Company, prima facie there were no instances of transaction by the designated persons in the securities of the Company during the closure of trading window.
10. During the audit period, there were no instances of:
 - i) Public/ Rights/debentures/ sweat equity, etc, except issue of equity shares pursuant to ESOP Scheme and issuance of shares to Qualified Institutional Buyers;
 - ii) Redemption / Buy- back of securities;
 - iii) Major decisions taken by the Members in pursuance to Section 180 of the Companies Act, 2013 which would have major bearing on the Company's affairs;
 - iv) Merger / amalgamation / reconstruction etc.;
 - v) Foreign Technical Collaborations.

I further report that:

1. Maintenance of Secretarial record is the responsibility of the Management of the Company. My responsibility is to express an opinion on these Secretarial Records based on my audit.
2. I have followed the audit practices and processes as were appropriate to obtain reasonable assurance about the correctness of the contents of the Secretarial records. The verification was done on test basis to ensure that correct facts are reflected in the Secretarial records. I believe that the processes and practices, I followed provide a reasonable basis for my opinion.

BOROSIL RENEWABLES LIMITED

3. Where ever required, I have obtained the Management representation about the compliance of Laws, Rules and Regulations and happening of events etc.
4. I have not verified the correctness and appropriateness of financial records and Books of Accounts of Company.
5. The compliance of the provisions of Corporate and other applicable Laws, Rules, Regulations, Standards is the responsibility of the Management. My examination was limited to the verification of procedures on test basis.
6. The Secretarial Audit report is neither an assurance as to the future viability of the Company nor the efficacy or effectiveness with which the Management has conducted the affairs of the Company.
7. I have conducted online verification and examination of records, as facilitated by the Company due to Covid-19 and subsequent lockdown situation for the purpose of issuing this Report.

INDEPENDENT AUDITOR'S REPORT

**TO THE MEMBERS OF BOROSIL RENEWABLES LIMITED
(FORMERLY BOROSIL GLASS WORKS LIMITED)**

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of **BOROSIL RENEWABLES LIMITED (formerly BOROSIL GLASS WORKS LIMITED)** ("the Company"), which comprise the balance sheet as at 31st March 2021, and the statement of profit and loss (including other comprehensive income), statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as "financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March 2021, and its profit including other comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current year. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For the matter below, our description of how our audit addressed the matter is provided in that context.

We have determined the matter described below to be the key audit matter to be communicated in our report. We have fulfilled the responsibilities described in the Auditors' responsibilities for the audit of the Financial Statements section of our report, including in relation to that matter. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the Financial Statements. The results of our audit procedures, including the procedures performed to address the matter below, provide the basis for our audit opinion on the accompanying Financial Statements.

Key Audit Matters	How our audit addressed the key audit matter
(i) Revenue	
<p>During the year, the Company's revenue from operation has been increased substantially by 85.23%. Revenue is recognized when control of the underlying products have been transferred along with satisfaction of performance obligation. In determining the sales price, the Company considers the effects of rebates and discounts (variable consideration). The terms of sales arrangements, including the timing of transfer of control, the nature of discount and rebates arrangements and delivery specifications, create complexity and judgment in determining sales revenues.</p> <p>Risk exists that revenue is recognised without substantial transfer of control and is not in accordance with IND AS115 'Revenue from contracts with customers', resulting into recognition of revenue in incorrect period.</p>	<p>We assessed the Company's processes and controls for recognizing revenue as part of our audit. Our audit procedures included the following:</p> <ul style="list-style-type: none"> • Assessing the environment of the IT systems related to invoicing and measurement as well as other relevant systems supporting the accounting of revenue. • Performed sample tests of individual sales transaction and traced to sales invoices, sales orders shipping documents and other related documents. In respect of the samples selected, tested that the revenue has been recognized as per the sales orders; • Verifying the completeness of disclosure in the financial statements as per Ind AS 115.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual Report but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to communicate the matter to those charged with governance. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate implementation and maintenance of accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so. Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3) (i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Company to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's

report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current year and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

- 1 As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the "Annexure B" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
- 2 As required by Section 143(3) of the Act, we report that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - (c) The Balance Sheet, the Statement of Profit and Loss (including other comprehensive income), the statement of Changes in Equity and the Statement of Cash Flows dealt with by this Report are in agreement with the books of account.
 - (d) In our opinion, the aforesaid financial statements comply with the Indian Accounting Standards specified under Section 133 of the Act, read with the Companies (Indian Accounting Standards) Rules, 2015.

“ANNEXURE A” TO INDEPENDENT AUDITOR’S REPORT

(Referred to in paragraph 2 (f) under ‘Report on Other Legal and Regulatory Requirements’ of our report of even date to the members of Borosil Renewables Limited (formerly Borosil Glass Works Limited) on the financial statements for the year ended 31st March, 2021)

Report on the Internal Financial Controls with reference to financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls with reference to financial statements of **Borosil Renewables Limited (formerly Borosil Glass Works Limited)** (“the Company”) as of 31st March, 2021 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over financial reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor’s Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls with reference to financial statements.

Meaning of Internal Financial Controls with reference to financial statements

A Company's internal financial control with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to financial statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial control with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at 31st March, 2021 based on the internal control with reference to financial statements criteria over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by ICAI.

“ANNEXURE B” TO INDEPENDENT AUDITOR’S REPORT

(Referred to in paragraph 1 under the heading “Report on Other Legal and Regulatory Requirements” of our report of even date to the members of Borosil Renewables Limited (formerly Borosil Glass Works Limited) on the financial statements for the year ended 31st March, 2021)

i. In respect of its fixed assets:

- a. The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets on the basis of available information.
- b. As explained to us, the Company has physically verified assets, in accordance with a phased program of verification, which in our opinion is reasonable, having regard to the size of the Company and nature of its assets. No material discrepancies were noticed on such physical verification as compared with the available records.
- c. According to the information and explanation provided to us and the records examined by us and based on the examination of the registered sale deed/ conveyance deed, we report that, the title deeds, comprising all the immovable properties of land and buildings which are freehold, are held in the name of the Company, as at the balance sheet date.

ii. In respect of its inventories:

As explained to us, inventories have been physically verified during the year by the management, except for inventories in transit for which management confirmation has been received. In our opinion the frequency of verification is reasonable. Discrepancies noticed on physical verification of the inventories between the physical inventories and book records were not material, having regard to the size of the operations of the Company, and the same have been properly dealt with.

- iii. During the year, the Company has not granted any loans, secured or unsecured to companies, firms, limited liability partnership or other parties covered in register maintained under section 189 of the Act. Therefore, the provisions of the clause (iii) of paragraph 3 of the Order are not applicable to the Company.
- iv. In our opinion and according to the information and explanations given to us, the Company has complied with the provisions of section 185 and 186 of the Act, as applicable, in respect of making investments. The Company has not provided any guarantee or security and grant of loan.
- v. According to the information and explanations given to us, the Company has not accepted any deposit from the public. Therefore, the provisions of clause (v) of paragraph 3 of the Order are not applicable to the Company.
- vi. We have broadly reviewed the cost records maintained by the Company pursuant to the Companies (Cost Records and Audit) Rules, 2014 prescribed by the Central Government under Section 148(1) (d) of the act, as applicable and are of the opinion that, prima facie, the prescribed accounts and records have been maintained. We have, however, not made a detailed examination of the cost records with a view to determine whether they are accurate or complete.

BOROSIL RENEWABLES LIMITED

- vii. According to the information and explanations given to us, in respect of statutory dues:
- a. The Company has generally been regular in depositing undisputed statutory dues, including Provident Fund, Income tax, Customs Duty, Cess, Goods and Service Tax and any other statutory dues with the appropriate authorities. According to the information and explanations given to us, no undisputed amounts payable in respect of such statutory dues were outstanding as at 31st March, 2021 for a period of more than six months from the date they became payable.
- b. Details of dues of Duty of Income Tax, Service Tax and Sales Tax aggregating to **Rs. 725.54 Lakhs** that have not been deposited on account of disputed matters pending before appropriate authorities are as under:

Name of the Statutes	Nature of the Dues	Period to which it relates	Amounts (Rs. in Lakhs) (*)	Forum where the dispute is pending

- viii. Based on our audit procedures and according to the information and explanations given by the management, we are of the opinion that as on 31st March, 2021 the Company has not defaulted in repayment of dues to banks. The Company does not have any borrowings from financial institutions, government and debenture holders.
- ix. According to the information and explanations given to us, during the year the Company has not raised any money by way of initial public offer or further public offer (including debt instruments). The term loans raised by the Company in earlier years have, prima facie, been applied for the purpose for which they are raised.
- x. Based on our audit procedures performed for the purpose of reporting the true and fair view of the financial statements and on the basis of information and explanations given by the management, no fraud by the Company or on the Company by its officers or employees has been noticed or reported during the year.
- xi. In our opinion and according to the information and explanations give to us and based on our examination of the records, the Company has paid/ provided managerial remuneration in accordance with the requisite approvals mandated by the provisions of section 197 read with schedule V to the Act

The financial statements are presented in Indian Rupees (Rs.), which is the Company’s functional and presentation currency. All amounts are rounded to the nearest lakhs and two decimals thereof, except when otherwise indicated.

Note : 3 SIGNIFICANT ACCOUNTING POLICIES**3.1 Business Combination and Goodwill/Capital Reserve:**

The Company uses the pooling of interest method of accounting to account for common control business combination and acquisition method of accounting to account for other business combinations.

The acquisition date is the date on which control is transferred to the acquirer. Judgement is applied in determining the acquisition date and determining whether control is transferred from one party to another. Control exists when the Company is exposed to, or has rights to variable returns from its involvement with the entity and has the ability to affect those returns through power over the entity. In assessing control, potential voting rights are considered only if the rights are substantive.

“Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred and the amount recognised for non-controlling interests, and any previous interest held, over the net

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2021

identifiable assets acquired and liabilities assumed. If the fair value of the net assets acquired is in excess of the aggregate consideration transferred, the Company re-assesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed and reviews the procedures used to measure the amounts to be recognised at the acquisition date. If the re-assessment still results in an excess of the fair value of net assets acquired over the aggregate consideration transferred, then the gain is recognised in Other Comprehensive Income (OCI) and accumulated in other equity as capital reserve. However, if there is no clear evidence of bargain purchase, the entity recognises the gain directly in other equity as capital reserve, without routing the same through OCI.

Consideration transferred includes the fair values of the assets transferred, liabilities incurred by the Company to the previous owners of the acquiree, and equity interests issued by the Company. Consideration transferred also includes the fair value of any contingent consideration. Consideration transferred does not include amounts related to the settlement of pre-existing relationships. Any goodwill that arises on account of such business combination is tested annually for impairment.

Any contingent consideration is measured at fair value at the date of acquisition. If an obligation to pay contingent consideration that meets the definition of a financial instrument is classified as equity, then it is not re-measured and the settlement is accounted for within other equity. Otherwise, other contingent consideration is re-measured at fair value at each reporting date and subsequent changes in the fair value of the contingent consideration are recorded in the Statement of Profit and Loss.

A contingent liability of the acquiree is assumed in a business combination only if such a liability represents a present obligation and arises from a past event, and its fair value can be measured reliably. On an acquisition-by-acquisition basis, the Company recognises any non-controlling interest in the acquiree either at fair value or at the non-controlling interest's proportionate share of the acquiree's identifiable net assets. Transaction costs that the Company incurs in connection with a business combination, such as Stamp Duty for title transfer in the name of the Company, finder's fees, legal fees, due diligence fees and other professional and consulting fees, are expensed as incurred.

In case of Pooling of interest method of accounting, the assets and liabilities of the combining entities recognises at their carrying amounts. No adjustment is made to reflect the fair value or recognise any new assets and liabilities. The financial information in the financial statements in respect of prior periods restates as if the business combination had occurred from the beginning of the preceding period. The difference, if any, between the amount recorded as share capital issued plus any additional consideration in the form of cash or other assets and the amount of share capital of the transferor is transferred to capital reserve and presented separately from other capital reserves.

Transaction costs that the Company incurs in connection with a business combination such as finders' fees, legal fees, due diligence fees, and other professional and consulting fees are expensed as incurred.

3.2 Property, Plant and Equipment

Property, Plant and Equipment are carried at cost, net of recoverable taxes, trade discount and rebates less accumulated depreciation and impairment losses, if any. Cost includes purchase price, borrowing cost and any cost directly attributable to the bringing the assets to its working condition for

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2021

its intended use. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the entity and the cost can be measured reliably. In case of Property, Plant and Equipment, the Company has availed the carrying value as deemed cost on the date of transition i.e. 1st April, 2015.

Property, Plant and Equipment not ready for the intended use on the date of Balance Sheet are disclosed as "Capital Work-in-Progress" and expenses incurred relating to it, net of income earned during the development stage, are disclosed as pre-operative expenses under "Capital Work-in-Progress".

Depreciation on the Property, Plant and Equipment is provided using straight line method over the useful life of the assets as specified in Schedule II to the Companies Act, 2013 and following assets where the useful life is different as per technical evaluation than those prescribed in Schedule II.

Particulars	Useful life considered for depreciation	
Tempering line 3	:-	10 Years
Solar Glass Plant 2	:-	10 Years
Melting Furnace	:-	5 Years

Freehold land is not depreciated.

The asset's residual values, useful lives and method of depreciation are reviewed at each financial year end and are adjusted prospectively, if appropriate.

Property, Plant and Equipment are eliminated from financial statements, either on disposal or when retired from active use. Gains / losses arising in the case of retirement/disposal of Property, Plant and Equipment are recognised in the statement of profit and loss in the year of occurrence.

3.3 Intangible Assets

Intangible assets are carried at cost less accumulated amortisation and impairment losses, if any. Cost includes expenditure that is directly attributable to the acquisition of the Intangible Assets. In case of Intangible Assets the Company has availed the carrying value as deemed cost on the date of transition i.e. 1st April, 2015.

Identifiable Intangible assets are recognised when it is probable that future economic benefits attributed to the asset will flow to the Company and the cost of the asset can be reliably measured.

Computer Softwares are capitalised at the amounts paid to acquire the respective license for use and are amortised on a straight line method over the period of useful lives or period of three years, whichever is less. The assets' useful lives and method of depreciation are reviewed at each financial year end.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2021

Gains or losses arising from derecognition of an Intangible Asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the statement of profit and loss when the asset is derecognised.

3.4 Leases

On April 1, 2019, the Company adopted Ind AS 116 - Leases.

The Company evaluates if an arrangement qualifies to be a lease as per the requirements of Ind AS 116. Identification of a lease requires significant judgement. The Company uses significant judgement in assessing the lease term (including anticipated renewals) and the applicable discount rate. The Company determines the lease term as the non-cancellable period of a lease, together with both periods covered by an options to extend the lease if the Company is reasonably certain to exercise that options; and periods covered by an option to terminate the lease if the Company is reasonably certain not to exercise that options. In assessing whether the company is reasonably certain to exercise an option to extend a lease, or not to exercise an option to terminate a lease, it considers all relevant facts and circumstances that create an economic incentive for the Company to exercise the option to extend the lease, or not to exercise the option to terminate the lease. The Company revises the lease term if there is a change in the non-cancellable period of a lease. The discount rate is generally based on the incremental borrowing rate specific to the lease being evaluated or for a portfolio of leases with similar characteristics.

The Company as a lessee

The Company's lease asset classes primarily consist of leases for land and buildings. The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

Certain lease arrangements includes the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised.

The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2021

Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. Right of use assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases. Lease liabilities are remeasured with a corresponding adjustment to the related right of use asset if the Company changes its assessment if whether it will exercise an extension or a termination option.

The discount rate is generally based on the incremental borrowing rate specific to the lease being evaluated or for a portfolio of leases with similar characteristics.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

The Company as a lessor

Leases for which the Company is a lessor is classified as a finance or operating lease. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

When the Company is an intermediate lessor, it accounts for its interests in the head lease and the sublease separately. The sublease is classified as a finance or operating lease by reference to the right- of-use asset arising from the head lease.

For operating leases, rental income is recognized on a straight line basis over the term of the relevant lease.

3.5 Inventories

Inventories are valued at the lower of cost and net realizable value. Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale. The cost of inventories comprises of cost of purchase, cost of conversion and other costs incurred in bringing the inventories to their respective present location and condition. The cost of raw materials, stores, spares & consumables and packing materials are computed on the weighted average basis. Scrap (cullet) are valued at raw materials cost. Cost of work in progress and finished goods is determined on absorption costing method.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2021**3.6 Cash and Cash Equivalents**

Cash and cash equivalents in the Balance Sheet comprise cash at banks, cash on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Company's cash management.

3.7 Impairment of Non-Financial Assets - Property, Plant and Equipment and Intangible Assets:

The Company assesses at each reporting date as to whether there is any indication that any Property, Plant and Equipment and Intangible Assets or group of assets, called cash generating units (CGU) may be impaired. If any such indication exists the recoverable amount of an asset or CGU is estimated to determine the extent of impairment, if any. When it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the CGU to which the asset belongs.

An impairment loss is recognised in the Statement of Profit and Loss to the extent, asset's carrying amount exceeds its recoverable amount. The recoverable amount is higher of an asset's fair value less cost of disposal and value in use. Value in use is based on the estimated future cash flows, discounted to their present value using pre-tax discount rate that reflects current market assessments of the time value of money and risk specific to the assets.

The impairment loss recognised in prior accounting period is reversed if there has been a change in the estimate of recoverable amount.

3.8 Discontinued operation and Non-Current Assets (or disposal groups) Held for Sale**Discontinued operation**

A discontinued operation is a component of the Company that has been disposed of or is classified as held for sale and that represents a separate major line of business or geographical area of operations, is part of a single co-ordinated plan to dispose of such a line of business or area of operations, or is a subsidiary acquired exclusively with a view to resale. The results of discontinued operations are presented separately in the statement of profit and loss.

Held for Sale

Non-Current Assets are classified as Held for Sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use. This condition is regarded as met only when a sale is highly probable from the date of classification, management are committed to the sale and the asset is available for immediate sale in its present condition. Non-Current Assets are classified as Held for Sale from the date these conditions are met and are measured at the lower of carrying amount and fair value less cost to sell. Any resulting impairment loss is recognised in the

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2021

statement of profit and loss as a separate line item. On classification as Held for Sale, the assets are no longer depreciated. Assets and liabilities classified as Held for Sale are presented separately as current items in the Balance Sheet.

3.9 Financial instruments -

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

I) Financial Assets - Initial recognition and measurement

All financial assets are initially recognized at fair value. Transaction costs that are directly attributable to the acquisition of financial assets, which are not at fair value through profit or loss, are adjusted to the fair value on initial recognition. Financial assets are classified, at initial recognition, as financial assets measured at fair value or as financial assets measured at amortised cost.

Financial assets - Subsequent measurement

For the purpose of subsequent measurement financial assets are classified in two broad categories:-

- a) Financial assets at fair value
- b) Financial assets at amortised cost

Where assets are measured at fair value, gains and losses are either recognised entirely in the statement of profit and loss (i.e. fair value through profit and loss), or recognised in other comprehensive income (i.e. fair value through other comprehensive income).

A financial asset that meets the following two conditions is **measured at amortised cost** (net of any write down for impairment) unless the asset is designated at fair value through profit or loss under the fair value option.

- a) **Business model test:** The objective of the Company's business model is to hold the financial asset to collect the contractual cash flow.
- b) **Cash flow characteristics test:** The contractual terms of the financial asset give rise on specified dates to cash flow that are solely payments of principal and interest on the principal amount outstanding.

A financial asset that meets the following two conditions is measured at **fair value through other comprehensive income** unless the asset is designated at fair value through profit or loss under the fair value option.

- a) **Business model test:** The financial asset is held within a business model whose objective is achieved by both collecting contractual cash flow and selling financial assets.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2021

- b) **Cash flow characteristics test:** The contractual terms of the financial asset give rise on specified dates to cash flow that are solely payments of principal and interest on the principal amount outstanding.

All other financial asset is measured at fair value through profit or loss.

Financial assets - Derecognition

A financial assets (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e. removed from the Company's statement of financial position) when:

- a) The rights to receive cash flows from the asset have expired, or
- b) The Company has transferred its rights to receive cash flow from the asset.

Impairment of Financial Assets

In accordance with Ind AS 109, the Company uses 'Expected Credit Loss' (ECL) model, for evaluating impairment of financial assets other than those measured at fair value through profit and loss (FVTPL).

Expected credit losses are measured through a loss allowance at an amount equal to:

- a) The 12-months expected credit losses (expected credit losses that result from those default events on the financial instrument that are possible within 12 months after the reporting date); or
- b) Full lifetime expected credit losses (expected credit losses that result from all possible default events over the life of the financial instrument)

For trade receivables Company applies 'simplified approach' which requires expected lifetime losses to be recognised from initial recognition of the receivables. The Company uses historical default rates to determine impairment loss on the portfolio of trade receivables. At every reporting date these historical default rates are reviewed and changes in the forward looking estimates are analysed.

For other assets, the Company uses 12 month ECL to provide for impairment loss where there is no significant increase in credit risk. If there is significant increase in credit risk full lifetime ECL is used.

II) Financial Liabilities - Initial recognition and measurement:

The financial Liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2021**Financial Liabilities - Subsequent measurement:**

Financial Liabilities are subsequently carried at amortised cost using the effective interest method. For trade and other payables maturing within one year from the Balance Sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

Financial Liabilities - Financial guarantee contracts:

Financial guarantee contracts issued by the Company are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified debtor fails to make a payment when due in accordance with the terms of a debt instrument. Financial guarantee contracts are recognised initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the amount of loss allowance determined and the amount recognised less cumulative amortisation.

Financial liability - Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another, from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

3.10 Provisions, Contingent Liabilities, Contingent assets and Commitments:

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event. It is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. If the effect of the time value of money is material, provisions are discounted using equivalent period government securities interest rate. Unwinding of the discount is recognised in the statement of profit and loss as a finance cost. Provisions are reviewed at each Balance Sheet date and are adjusted to reflect the current best estimate.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made. Information on contingent liability is disclosed in the Notes to the Financial Statements. Contingent assets are not recognised. However, when the realisation of income is virtually certain, then the related asset is no longer a contingent asset, but it is recognised as an asset.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2021**3.11 Dividend Distribution:**

Annual dividend distribution to the shareholders is recognised as a liability in the period in which the dividends are approved by the shareholders. Any interim dividend paid is recognised on approval by Board of Directors. Dividend payable and corresponding tax on dividend distribution is recognised directly in other equity.

3.12 Revenue recognition and other income:**Sales of goods and services:**

The Company derives revenues primarily from sale of products comprising of extra clear patterned glass and Low Iron Solar Glass.

Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration entitled in exchange for those goods or services. Generally, control is transfer upon shipment of goods to the customer or when the goods is made available to the customer, provided transfer of title to the customer occurs and the Company has not retained any significant risks of ownership or future obligations with respect to the goods shipped.

Revenue is measured at the amount of consideration which the company expects to be entitled to in exchange for transferring distinct goods or services to a customer as specified in the contract, excluding amounts collected on behalf of third parties (for example taxes and duties collected on behalf of the government). Consideration is generally due upon satisfaction of performance obligations and a receivable is recognized when it becomes unconditional.

The Company does not expect to have any contracts where the period between the transfer of the promised goods or services to the customer and payment by the customer exceeds one year. As a consequence, it does not adjust any of the transaction prices for the time value of money.

Revenue is measured based on the transaction price, which is the consideration, adjusted for volume discounts, performance bonuses, price concessions and incentives, if any, as specified in the contract with the customer. Revenue also excludes taxes collected from customers.

Revenue from rendering of services is recognised over time by measuring the progress towards complete satisfaction of performance obligations at the reporting period.

Contract Balances - Trade Receivables

A receivable represents the Company's right to an amount of consideration that is unconditional.

Contract liabilities

A contract liability is the obligation to transfer goods or services to a customer for which the Company has received consideration (or an amount of consideration is due) from the customer. If a customer

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2021

pays consideration before the Company transfers goods or services to the customer, a contract liability is recognised when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognised as revenue when the Company performs under the contract.

Other Income:

Incentives on exports and other Government incentives related to operations are recognised in the statement of profit and loss after due consideration of certainty of utilization/receipt of such incentives.

Interest Income:

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

Dividend Income:

Dividend Income is recognised when the right to receive the payment is established.

Rental income:

Rental income arising from operating leases is accounted for on a straight-line basis over the lease terms and is included as other income in the statement of profit or loss.

3.13 Foreign currency transaction and translation:

Transactions in foreign currencies are recorded at the exchange rate prevailing on the date of transaction. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency closing rates of exchange at the reporting date.

Exchange differences arising on settlement or translation of monetary items are recognised in Statement of Profit and Loss except to the extent of exchange differences which are regarded as an adjustment to interest costs on foreign currency borrowings that are directly attributable to the acquisition or construction of qualifying assets, are capitalized as cost of assets.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the transaction. Non-monetary items carried at fair value that are denominated in foreign currencies are translated at the exchange rates prevailing at the date when the fair value was determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognised in OCI or profit or loss are also recognised in OCI or profit or loss, respectively).

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2021

Foreign exchange differences regarded as an adjustment to borrowing costs are presented in the statement of profit and loss, within finance costs. All other finance gains / losses are presented in the statement of profit and loss on a net basis.

In case of an asset, expense or income where a non-monetary advance is paid/received, the date of transaction is the date on which the advance was initially recognized. If there were multiple payments or receipts in advance, multiple dates of transactions are determined for each payment or receipt of advance consideration.

3.14 Employee Benefits

Short term employee benefits are recognized as an expense in the statement of profit and loss of the year in which the related services are rendered.

Leave encashment is accounted as Short-term employee benefits and is determined based on projected unit credit method, on the basis of actuarial valuations carried out by third party actuaries at each Balance Sheet date.

Contribution to Provident Fund, a defined contribution plan, is made in accordance with the statute, and is recognised as an expense in the year in which employees have rendered services.

The cost of providing gratuity, a defined benefit plans, is determined based on Projected Unit Credit Method, on the basis of actuarial valuations carried out by third party actuaries at each Balance Sheet date. Actuarial gains and losses arising from experience adjustments and changes in actuarial assumptions are charged or credited to other comprehensive income in the period in which they arise. Other costs are accounted in statement of profit and loss.

Remeasurements of defined benefit plan in respect of post employment and other long term benefits are charged to the other comprehensive income in the year in which they occur. Remeasurements are not reclassified to statement of profit and loss in subsequent periods.

3.15 Share-based payments:

The cost of equity-settled transactions with employees is measured at fair value at the date at which they are granted. The fair value of share options are determined with the assistance of an external valuer and the fair value at the grant date is expensed on a proportionate basis over the vesting period based on the Company's estimate of shares that will eventually vest. The estimate of the number of options likely to vest is reviewed at each balance sheet date up to the vesting date at which point the estimate is adjusted to reflect the current expectations. Amounts charged to Group Company, if any, in respect of options granted to employees of Group Company are recognised as receivable under current financial assets - others until paid by Group Company.

3.16 Borrowing Costs

Borrowing costs specifically relating to the acquisition or construction of qualifying assets that necessarily takes a substantial period of time to get ready for its intended use are capitalized (net

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2021

of income on temporarily deployment of funds) as part of the cost of such assets. Borrowing costs consist of interest and other costs that the Company incurs in connection with the borrowing of funds. For general borrowing used for the purpose of obtaining a qualifying asset, the amount of borrowing costs eligible for capitalization is determined by applying a capitalization rate to the expenditures on that asset. The capitalization rate is the weighted average of the borrowing costs applicable to the borrowings of the Company that are outstanding during the period, other than borrowings made specifically for the purpose of obtaining a qualifying asset. The amount of borrowing costs capitalized during a period does not exceed the amount of borrowing cost incurred during that period. All other borrowing costs are expensed in the period in which they occur.

3.17 Taxes on Income

Income tax expense represents the sum of current tax (including income tax for earlier years) and deferred tax. Tax (including MAT Credit Entitlement) is recognised in the statement of profit and loss, except to the extent that it relates to items recognised directly in equity or other comprehensive income, in such cases the tax is also recognised directly in equity or in other comprehensive income. Any subsequent change in direct tax on items initially recognised in equity or other comprehensive income is also recognised in equity or other comprehensive income.

Current tax provision is computed for income calculated after considering allowances and exemptions under the provisions of the applicable Income Tax Laws. Current tax assets and current tax liabilities are off set, and presented as net.

Deferred tax is recognised on differences between the carrying amounts of assets and liabilities in the Balance sheet and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences, and deferred tax assets are generally recognised for all deductible temporary differences, carry forward tax losses, unutilised tax credits and allowances to the extent that it is probable that future taxable profits will be available against which those deductible temporary differences, carry forward tax losses, unutilised tax credits and allowances can be utilised. Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates that have been enacted or substantively enacted by the end of the reporting period. The carrying amount of Deferred tax liabilities and assets (including MAT Credit Entitlement) are reviewed at the end of each reporting period.

3.18 Earnings per share

Basic earnings per share is computed using the net profit or loss for the year attributable to the shareholders' and weighted average number of equity shares outstanding during the year.

Diluted earnings per share is computed using the net profit or loss for the year attributable to the shareholders' and weighted average number of equity and potential equity shares outstanding during the year including share options, convertible preference shares and debentures, except where the result would be anti-dilutive. Potential equity shares that are converted during the year are included in the calculation of diluted earnings per share, from the beginning of the year or date of issuance of such potential equity shares, to the date of conversion.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2021**3.19 Current and non-current classification**

The Company presents assets and liabilities in statement of financial position based on current/non-current classification.

The Company has presented non-current assets and current assets before equity, non-current liabilities and current liabilities in accordance with Schedule III, Division II of Companies Act, 2013 notified by Ministry of Corporate Affairs (MCA).

An asset is classified as current when it is:

- a) Expected to be realised or intended to be sold or consumed in normal operating cycle,
- b) Held primarily for the purpose of trading,
- c) Expected to be realised within twelve months after the reporting period, or
- d) Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is classified as current when it is:

- a) Expected to be settled in normal operating cycle,
- b) Held primarily for the purpose of trading,
- c) Due to be settled within twelve months after the reporting period, or
- d) There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash or cash equivalents. Deferred tax assets and liabilities are classified as non-current assets and liabilities. The Company has identified twelve months as its operating cycle.

3.20 Fair value measurement:

The Company measures financial instruments at fair value at each Balance Sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- a) In the principal market for the asset or liability, or
- b) In the absence of a principal market, in the most advantageous market for the asset or liability.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2021

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy.

3.21 Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the Balance Sheet where there is a legally enforceable rights to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable rights must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or counterparty.

Note : 4 SIGNIFICANT ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods. The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. However, existing circumstances and assumptions about future developments may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

4.1 Property, Plant and Equipment and Intangible Assets:

Management reviews the estimated useful lives and residual values of the assets annually in order to determine the amount of depreciation to be recorded during any reporting period. The useful lives and residual values as per schedule II of the Companies Act, 2013 or are based on the Company's historical experience with similar assets and taking into account anticipated technological changes, whichever is more appropriate.

4.2 Income Tax:

Company reviews at each balance sheet date the carrying amount of deferred tax assets (including Mat credit entitlement). The factors used in estimates may differ from actual outcome which could lead to an adjustment to the amounts reported in the financial statements. The Company has carry forward

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2021

tax losses and MAT credit that are available for offset against future taxable profit. Deferred tax assets are recognised only to the extent that it is probable that taxable profit will be available against which the unused tax losses or tax credits can be utilised. This involves an assessment of when those assets are likely to reverse, and a judgement as to whether or not there will be sufficient taxable profits available to offset the assets. This requires assumptions regarding future profitability, which is inherently uncertain. To the extent assumptions regarding future profitability change, there can be an increase or decrease in the amounts recognised in respect of deferred tax assets and consequential impact in the statement of profit and loss.

4.3 Contingencies:

Management has estimated the possible outflow of resources at the end of each annual financial year, if any, in respect of contingencies/claim/litigations against the Company as it is not possible to predict the outcome of pending matters with accuracy.

4.4 Impairment of Financial Assets:

The impairment provisions for financial assets are based on assumptions about risk of default and expected cash loss. The Company uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on Company's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.

4.5 Impairment of Non-Financial Assets:

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or Cash Generating Units (CGU) fair value less costs of disposal and its value in use. It is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent to those from other assets or groups of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less cost of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples or other available fair value indicators.

4.6 Defined benefits plans:

The Cost of the defined benefit plan and other post-employment benefits and the present value of such obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases, mortality rates and attrition rate. Due to the complexities

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2021

involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

4.7 Recoverability of trade receivable:

Judgements are required in assessing the recoverability of overdue trade receivables and determining whether a provision against those receivables is required. Factors considered include the credit rating of the counterparty, the amount and timing of anticipated future payments and any possible actions that can be taken to mitigate the risk of non-payment.

4.8 Provisions:

Provisions and liabilities are recognized in the period when it becomes probable that there will be a future outflow of funds resulting from past operations or events and the amount of cash outflow can be reliably estimated. The timing of recognition and quantification of the liability require the application of judgement to existing facts and circumstances, which can be subject to change. Since the cash outflows can take place many years in the future, the carrying amounts of provisions and liabilities are reviewed regularly and adjusted to take account of changing facts and circumstances.

4.9 Fair value measurement of financial instruments:

When the fair value of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the Discounted Cash Flow (DCF) model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2021

36.2 Sensitivity analysis:

Particulars	Changes in assumptions	(Rs. in Lakhs) Effect on Gratuity Obligation Increase/ (Decrease)
For the year ended 31st March, 2021		(Decrease) / Increase
Discount rate	+.5%	(21.41)
	-0.5%	22.84
Salary growth rate	+.5%	20.88
	-0.5%	(19.45)
Withdrawal rate (W.R.)	W.R. x 110%	0.73
	W.R. x 90%	(0.74)
For the year ended 31st March, 2020		(Decrease) / Increase
Discount rate	+.5%	(15.57)
	-0.5%	16.62
Salary growth rate	+.5%	15.76
	-0.5%	(14.90)
Withdrawal rate (W.R.)	W.R. x 110%	0.68
	W.R. x 90%	(0.70)

The above sensitivity analysis is based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. In presenting the above sensitivity analysis, the present value of defined benefit obligation has been calculated using the projected unit credit method at the end of reporting period, which is the same as that applied in calculating the defined obligation liability recognized in the Balance Sheet.

36.3 Risk exposures

A. Actuarial Risk: It is the risk that benefits will cost more than expected. This can arise due to one of the following reasons:

Adverse Salary Growth Experience: Salary hikes that are higher than the assumed salary escalation will result into an increase in obligation at a rate that is higher than expected.

Variability in mortality rates: If actual mortality rates are higher than assumed mortality rate then the Gratuity benefits will be paid earlier than expected. Since there is no condition of vesting on the death benefit, the acceleration of cash flow will lead to an actuarial loss or gain depending on the relative values of the assumed salary growth and discount rate.

Variability in withdrawal rates: If actual withdrawal rates are higher than assumed withdrawal rate then the Gratuity benefits will be paid earlier than expected. The impact of this will depend on whether the benefits are vested as at the resignation date.”

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2021

- B. Investment Risk:** For funded plans that rely on insurers for managing the assets, the value of assets certified by the insurer may not be the fair value of instruments backing the liability. In such cases, the present value of the assets is independent of the future discount rate. This can result in wide fluctuations in the net liability or the funded status if there are significant changes in the discount rate during the inter-valuation period.
- C. Liquidity Risk:** Employees with high salaries and long durations or those higher in hierarchy accumulate significant level of benefits. If some of such employees resign/retire from the company there can be strain on the cash flows.
- D. Market Risk:** Market risk is a collective term for risks that are related to the changes and fluctuations of the financial markets. One actuarial assumption that has a material effect is the discount rate. The discount rate reflects the time value of money. An increase in discount rate leads to decrease in Defined Benefit Obligation of the plan benefits & vice versa. This assumption depends on the yields on the corporate/government bonds and hence the valuation of liability is exposed to fluctuations in the yields as at the valuation date.
- E. Legislative Risk:** Legislative risk is the risk of increase in the plan liabilities or reduction in the plan assets due to change in the legislation/regulation. The government may amend the Payment of Gratuity Act thus requiring the companies to pay higher benefits to the employees. This will directly affect the present value of the Defined Benefit Obligation and the same will have to be recognized immediately in the year when any such amendment is effective.

36.4 Details of Asset-Liability Matching Strategy:-

Gratuity benefits liabilities of the company are Funded. There are no minimum funding requirements for a Gratuity benefits plan in India and there is no compulsion on the part of the Company to fully or partially pre-fund the liabilities under the Plan. The trustees of the plan have outsourced the investment management of the fund to insurance companies which are regulated by IRDA. Due to the restrictions in the type of investments that can be held by the fund, it may not be possible to explicitly follow an asset-liability matching strategy to manage risk actively in a conventional fund.

36.5 The expected payments towards contributions to the defined benefit plan is within one year.

36.6 The following payments are expected towards Gratuity in future years:

	(Rs. in Lakhs)
Year Ended	Expected payment
31 st March, 2022	18.89
31 st March, 2023	35.35
31 st March, 2024	25.13
31 st March, 2025	25.77
31 st March, 2026	45.57
31 st March, 2026 to 31 st March, 2031	326.46

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2021

36.7 The average duration of the defined benefit plan obligation at the end of the reporting period is 8.95 years (31 March 2020 : 9.60 years).

Note - 37 Share Based Payments

The Company offers equity based option plan to its employees through the Company's stock option plan.

Borosil Employee Stock Option Scheme (ESOS) 2017

On 2nd November, 2017, the Company introduced an Borosil Employee Stock Option Scheme 2017 ("ESOS"), which had been approved by the shareholders of the Company to provide equity settled incentive to specific employees of the Group. The ESOS scheme includes tenure based stock option options. The specific Employees to whom the Options are granted and their Eligibility Criteria are determined by the Nomination and Remuneration Committee. The Company had granted 3,63,708 options to the employees on 2nd November, 2017 with an exercise price of Rs. 200 per share and further, 79,680 options were granted to an employee on 24th July, 2018 with exercise price of Rs. 254 per share. Exercise period is 5 years from the date of respective vesting of options.

On account of Composite scheme of Amalgamation and Arrangement, as described in Note No 43, the Board of Directors of the Company in its meeting held on 3rd February , 2020, approved modification/ amendments of the existing "Borosil Employee Stock Option Scheme 2017" with a view to restore the value of the employee stock options ("Options") pre and post arrangement by providing fair and reasonable adjustment and sought to provide revised exercise price to the existing Option-holders, to whom old employee stock options had been granted under the ESOS 2017.

Pursuant to Composite Scheme of Amalgamation and Arrangement (Scheme), employment of these employees were transferred to Borosil Limited with effect from February 12, 2020, but in terms of clause 30 of the said scheme, their entitlement of options in the Company subsists.

The Nomination and Remuneration committee of the Board has approved adjusted exercise price with Rs. 72.25 per share for the options granted on 2nd November, 2017 and Rs. 91.75 per share for the options granted on 24th July, 2018.

Further in pursuant to the above scheme ESOS 2017 the Company has granted 1,75,000 options to employees of the Company during the year with an exercise of Rs. 274 per share. The Exercise period is 5 years from the date of respective of options

The details of share options for the year ended 31 March 2021 is presented below:

41.2 Fair Valuation techniques used to determine fair value

The Company maintains procedures to value its financial assets or financial liabilities using the best and most relevant data available. The fair values of the financial assets and liabilities are included at the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The following methods and assumptions were used to estimate the fair values:

- i) Fair value of cash and cash equivalents, other bank balances, trade receivables, trade payables, current loans, current borrowings, deposits and other current financial assets and liabilities are approximate at their carrying amounts largely due to the short-term maturities of these instruments.
- ii) The fair values of non-current borrowings, Security Deposits and Margin money are approximate at their carrying amount due to interest bearing features of these instruments.
- iii) Fair values of mutual fund are derived from published NAV (unadjusted) in active markets for identical assets.
- iv) The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.
- v) Fair values of quoted financial instruments are derived from quoted market prices in active markets.

41.3 Fair value hierarchy

The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation techniques:-

- i) **Level 1** :- Quoted prices / published NAV (unadjusted) in active markets for identical assets or liabilities. It includes fair value of financial instruments traded in active markets and are based on quoted market prices at the balance sheet date and financial instruments like mutual funds for which net assets value (NAV) is published by mutual fund operators at the balance sheet date.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2021

- ii) **Level 2** :- Inputs, other than quoted prices included within level 1, that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices). It includes fair value of the financial instruments that are not traded in an active market (for example, over-the-counter derivatives) is determined by using valuation techniques. These valuation techniques maximise the use of observable market data where it is available and rely as little as possible on the Company specific estimates. If all significant inputs required to fair value an instrument are observable then instrument is included in level 2.
- iii) **Level 3** :- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs). If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

The following table provides hierarchy of the fair value measurement of Company's asset and liabilities, grouped into Level 1 (Quoted prices in active markets), Level 2 (Significant observable inputs) and Level 3 (Significant unobservable inputs) as described below:

Note - 42 Financial Risk Management objective and policies

The Company is exposed to market risk, credit risk and liquidity risk. Risk management is carried out by the Company under policies approved by the board of directors. This Risk management plan defines how risks associated with the Company will be identified, analysed, and managed. It outlines how risk management activities will be performed, recorded, and monitored by the Company. The basic objective of risk management plan is to implement an integrated risk management approach to ensure all significant areas of risks are identified, understood and effectively managed, to promote a shared vision of risk management and encourage discussion on risks at all levels of the organization to provide a clear understanding of risk/benefit trade-offs, to deploy appropriate risk management methodologies and tools for use in identifying,

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2021

assessing, managing and reporting on risks, and to determine the appropriate balance between cost and control of risk and deploy appropriate resources to manage/optimize key risks. Activities are developed to provide feedback to management and other interested parties (e.g. Audit committee, Board etc.). The results of these activities ensure that risk management plan is effective in the long term.

42.1 Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market prices comprise three types of risk: foreign currency rate risk, interest rate risk and other price risks, such as equity price risk and commodity risk.

The sensitivity analysis is given relate to the position as at 31st March 2021 and 31st March 2020.

The sensitivity analysis excludes the impact of movements in market variables on the carrying value of post-employment benefit obligations, provisions and on the non-financial assets and liabilities. The sensitivity of the relevant Statement of Profit and Loss item is the effect of the assumed changes in the respective market risks. The Company's activities expose it to a variety of financial risks, including the effects of changes in foreign currency exchange rates and interest rates. This is based on the financial assets and financial liabilities held as at 31st March, 2021 and 31st March, 2020.

(a) Foreign exchange risk and sensitivity

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Company's exposure to the risk of changes in foreign exchange rates relates primarily to the Company's operating activities. The Company transacts business primarily in USD and EURO. The Company has obtained foreign currency loans, has foreign currency trade payables and receivables and is therefore, exposed to foreign exchange risk. The Company regularly reviews and evaluates exchange rate exposure arising from foreign currency transactions.

The following table demonstrates the sensitivity in the USD, EURO to the Indian Rupee with all other variables held constant. The impact on the Company's profit before tax due to changes in the fair values of monetary assets and liabilities is given below:

Unhedged Foreign currency exposure as at 31st March, 2021	Currency	Amount in FC	(Rs. in Lakhs)
Trade Receivables	USD	7,17,201	527.18
Trade Receivables	EURO	36,974	31.83
Trade Payables	USD	1,93,568	142.28
Trade Payables	EURO	4,18,872	360.64
Borrowings and interest thereon	EURO	17,55,682	1,511.63

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2021

Unhedged Foreign currency exposure as at 31st March, 2020	Currency	Amount in FC	(Rs. in Lakhs)
Trade Receivables	USD	1,46,223	110.23
Trade Receivables	EURO	5,31,379	441.31
Trade Payables	USD	4,98,394	375.72
Trade Payables	EURO	5,01,757	416.71
Borrowings and interest thereon	EURO	20,91,213	1,736.74

Foreign currency sensitivity

1% increase or decrease in foreign exchange rates will have the following impact on profit before tax:-

Particulars	(Rs. in Lakhs)			
	2020-21		2019-20	
	1% Increase	1% Decrease	1% Increase	1% Decrease
USD	3.85	(3.85)	(2.65)	2.65
EURO	(18.40)	18.40	(17.12)	17.12
Increase / (Decrease) in profit before tax	(14.56)	14.56	(19.78)	19.78

b) Interest rate risk and sensitivity :-

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company having non current borrowing in the form of Term Loan. Also, the Company is having current borrowings in the form of working capital facility. There is a fixed rate of interest in case of foreign currency Term Loan hence, there is no interest rate risk associated with this borrowing. The Company is exposed to interest rate risk associated with Term Loan and working capital facility due to floating rate of interest.

The table below illustrates the impact of a 2% increase in interest rates on interest on financial liabilities assuming that the changes occur at the reporting date and has been calculated based on risk exposure outstanding as of date. The year end balances are not necessarily representative of the average debt outstanding during the year. This analysis also assumes that all other variables, in particular foreign currency rates, remain constant.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2021

Particulars	(Rs. in Lakhs)			
	2020-21		2019-20	
	2% Increase	2% Decrease	2% Increase	2% Decrease
Working Capital Facility	(2.92)	2.92	(13.34)	13.34
Term Loan - From Bank	(125.07)	125.07	(171.75)	171.75
Increase / (Decrease) in profit before tax	(127.99)	127.99	(185.09)	185.09

The assumed movement in basis points for interest rate sensitivity analysis is based on the currently observable market environment.

c) Commodity price risk:-

The Company is exposed to the movement in price of key consumption materials in domestic and international markets. The Company entered into contracts for procurement of material, most of the transactions are short term fixed price contract and hence Company is not exposed to significant risk.

42.2 Credit risk

Credit risk is the risk that a counter party will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including deposits with banks, foreign exchange transactions and other financial instruments.

The Company considers the probability of default upon initial recognition of asset and whether there has been a significant increase in credit risk on an ongoing basis through each reporting year. To assess whether there is a significant increase in credit risk, the Company compares the risk of default occurring on asset as at the reporting date with the risk of default as at the date of initial recognition. It considers reasonable and supportive forwarding-looking information such as:

- i) Actual or expected significant adverse changes in business,
- ii) Actual or expected significant changes in the operating results of the counterparty,
- iii) Financial or economic conditions that are expected to cause a significant change to the counterparty's ability to meet its obligations,

Financial assets are written off when there is no reasonable expectation of recovery, such as a debtor failing to engage in a repayment plan with the Company. Where loans or receivables have been written off, the Company continues to engage in enforcement activity to attempt to recover the receivable due. Where recoveries are made, these are recognized as income in the statement of profit and loss. The Company measures the expected credit loss of trade

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2021

receivables based on historical trend, industry practices and the business environment in which the entity operates. Loss rates are based on actual credit loss experience and past trends. Based on the historical data, loss on collection of receivable is not material hence no additional provision considered.

a) Trade Receivables:-

The Company extends credit to customers in normal course of business. The Company considers factors such as credit track record in the market and past dealings with the Company for extension of credit to customers. The Company monitors the payment track record of the customers. Outstanding customer receivables are regularly monitored. The Company evaluates the concentration of risk with respect to trade receivables as low, as its customers are located in several jurisdictions and industries and operate in largely independent markets. No single customer accounted for 10% or more of revenue in any of the years presented. The history of trade receivables shows a negligible provision for bad and doubtful debts. Therefore, the Company does not expect any material risk on account of non performance by any of the counterparties.

The Company has used practical expedient by computing the expected credit loss allowance for trade receivables based on provision matrix. The provision matrix taken into account historical credit loss experience and adjusted for forward looking information. The expected credit loss allowance is based on ageing of the days the receivables are due.

The following table summarizes the Gross carrying amount of the trade receivable and provision made.

Particulars	(Rs. in lakhs)			
	As at 31 st March, 2021		As at 31 st March, 2020	
	Gross Carrying Amount	Loss Allowance	Gross Carrying Amount	Loss Allowance
Trade Receivable	7,267.90	3.62	4,081.72	3.62

b) Financial instruments and cash deposits:-

The Company considers factors such as track record, size of the institution, market reputation and service standards to select the banks with which balances are maintained. Credit risk from balances with bank is managed by the Company's finance department. Investment of surplus funds are also managed by finance department. The Company does not maintain significant cash in hand. Excess balance of cash other than those required for its day to day operations is deposited into the bank/Investment in Mutual Funds.

For other financial instruments, the finance department assesses and manage credit risk based on internal assessment. Internal assessment is performed for each class of financial instrument with different characteristics.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2021

42.3 Liquidity risk.

Liquidity risk is the risk that the Company may not be able to meet its present and future cash and collateral obligations without incurring unacceptable losses. The Company's objective is to, at all times, maintain optimum levels of liquidity to meet its cash and collateral requirements. The Company relies operating cash flows and short term borrowings in the form of working capital facility to meet its needs for funds. Company does not breach any covenants (where applicable) on any of its borrowing facilities. The Company has access to a sufficient variety of sources of funding as per requirement.

The table below provides undiscounted cash flows towards financial liabilities into relevant maturity based on the remaining period at the balance sheet to the contractual maturity date.
